Transformative Education

The Honors College is a small community of dedicated scholars—outstanding students and committed teachers—who work together in an atmosphere usually associated with small private colleges, but with all of the resources of a major state university.

The mission of the Honors College is to create an intellectual community where outstanding students and faculty engage in innovative, interdisciplinary, and international learning. This community is committed to excellence in all endeavors, academic and personal honor, innovative pedagogy and research, and respect for self and other.

The Honors College at FIU offers the very best in undergraduate education and preparation, providing the best possible foundation for academic, social, and professional development. Students’ undergraduate experiences are significantly enhanced by the interdisciplinary focus of the curriculum and the opportunity to work closely with top faculty from a wide variety of academic departments and schools. An emphasis on civic engagement and community involvement (including, but not limited to, the College’s extensive partnership with the City of Sweetwater) expands students’ leadership skills and builds community. Advance research, internship, and professional development opportunities unique to the College prepare students for future graduate study and employment.

Location

The Honors College operates at both Modesto A. Maidique Campus in DM 233 and the Biscayne Bay Campus in ACI 200.

Admissions Policy

Admission to the Honors College is selective and limited. Students are admitted only at the beginning of each academic year (fall term).

Freshmen: Students with a 3.5 weighted high school GPA and commensurate scores on the SAT or ACT are eligible for admission to the College.

Transfer and Continuing FIU Students: Students who have maintained a 3.3 GPA in all college-level work are eligible for admission to the College. To be considered for admission, students must be able to complete at least 12 credits of Honors before graduating.

Academic Policy

Students are required to maintain a cumulative 3.3 GPA for satisfactory standing in the Honors College.

Graduation Policy

Students are eligible for the transcript notation “Graduated through the Honors College” if they have met the following criteria:

- completed all major and degree requirements for graduation from the University;
- remained continuously enrolled in Honors courses until the semester of graduation or the completion of the Honors College curriculum (whichever comes first);
- completed a minimum of six credits of Honors courses per year of enrollment in the College;
- maintained an overall minimum FIU GPA of 3.3;
- completed Honors citizenship and portfolio requirements.

Honor Policy

In the Honors College, the term “honor” refers to both academic achievement and character. Students in the College should therefore adhere to and will be held to the highest standards of personal accountability. Students whose behavior brings discredit upon themselves and/or the College or who commit acts of academic misconduct will be dismissed from the College.

For more information on additional Honors College policies, please visit http://honors.fiu.edu.

The Honors Curriculum

Students in the College possess dual academic citizenship. They pursue any major available in the University and at the same time complete the Honors curriculum. In most cases, participation in the College does not increase the number of credits required for graduation. All 12 credits of the first two years of Honors seminars satisfy UCC core requirements. Each year students enroll in one honors seminar that is designed to stimulate thoughtful discussion and creativity and to develop communication skills. Honors seminars have a student/faculty ratio of approximately 20:1 and are taught by some of the best professors in the University. In the third and fourth years, students may choose from several options, including additional seminars, independent research in the ARCH program, and foreign study.

Many classes are team-taught; all are interdisciplinary. Years one and two at the Modesto A. Maidique Campus are structured similarly: students and faculty meet in a large group session one day a week for lectures, panel discussions, case studies, student presentations, films, and special events; the other class meeting each week is spent in small group discussion sessions. At the Biscayne Bay Campus, classes meet as small seminars. The third and fourth years provide a choice of individually taught seminars, an extended research project, and/or opportunities to study abroad.

The Honors program specifically helps students to develop the following competencies:

1. Research Skill - Honors College students will learn the principles of conducting academic research, logical analysis and synthesis, and be able to communicate results fluently orally and in writing.
2. **Interdisciplinarity and Connectivity** - Students will learn to apply ideas, methods, and knowledge from multiple disciplines to a question; recognize connections among things learned inside and outside the classroom; comprehend the complexity of important questions; and contextualize ideas, knowledge, information, and experiences.

3. **Global Learning** - Students will understand the interconnectedness and interdependence of global systems and issues; the historical, cultural, economic, and political forces that shape societies; and the nature and substance of various cultures.

4. **Appreciation of the Creative Arts** - Students will learn to articulate the importance of cultural artifacts and their production and to integrate knowledge and appreciation of the arts into their exploration of important questions and issues.

5. **Leadership and Community Engagement** - Students will develop awareness and application of ethical principles; assume leadership roles in the classroom, organization(s), and/or the larger community; and participate in activities that contribute to the common good.

**Year One**

**IDH 1001, IDH 1002 The Origin of Ideas and the Idea of Origins** (6). The course is designed to encourage students to become self-conscious learners, exploring not only the what, but also the how and why of knowing. The course focuses on the nature of truth and reality and our role in the world each of us has constructed.

**IDH 1931 Honors Introduction and Leadership Seminar** (1). The purpose of this course is to introduce students to the essentials needed for success at FIU and Honors. This year-long course will focus on writing, research, First-year, and leadership essentials.

**Year Two**

**IDH 2003, IDH 2004 Inhabiting Other Lives** (6). This seminar exposes students to issues of human commonality and diversity, and invites them to investigate and to understand the interconnectedness of various cultures, times and life experiences.

**Year Three**

**IDH 3034, IDH 3035 Aesthetics, Values, and Authority** (6). These seminars build on the work of the first two years and allow students to work in depth on a problem or subject of personal interest or professional relevance.

**Year Four**

**Option 1**

**IDH 4007, IDH 4008 Aesthetics, Values, and Authority** (6). Students may opt to take a second upper-division seminar course to complete their Honors requirements.

**Option 2**

**Departmental Honors Thesis**—Honors course work or honors thesis opportunities offered by individual departments will be accepted to satisfy the fourth-year requirement, with the proviso that students register their project with ARCH (see below) and present their work at the ARCH conference in spring.

**Option 3**

**ARCH Research Project**—Students may register for an individually mentored, in-depth research project under the direction of a faculty member with matching interests. The ARCH program engages students in advanced research or artistic projects by pairing students and faculty for cutting edge research. Students must present their research at the annual undergraduate research conference that is the culmination of the program.

**Option 4**

**Honors College Study Abroad**

Students may choose to complete the fourth year of the honors curriculum through one of the College's study abroad programs during the summer. Students take a three-credit preparatory course in the spring semester before traveling abroad. In the summer, the student will earn the remaining three credits of Honors. See [http://honors.fiu.edu/study_abrd_programs.htm](http://honors.fiu.edu/study_abrd_programs.htm) for a list of current programs.

**Honors Service-Research Certificate**

The Service-Research Certificate (SRC) provides an opportunity for Honors College students to integrate academic research, community partnerships, and service learning into a coherent program of study. This innovative, integrative, and transformational educational approach builds on the principles of community-based research (CRB), customizing it to undergraduate students from different fields of study in order to maximize students’ research skills, knowledge, leadership growth, and civic engagement. It includes courses central to an understanding of community engagement in a social and historical context. The certificate also offers students the opportunity to participate in research that positively impacts the communities in which they live, work, and study. Significantly, the certificate allows students to conduct applied research in their majors by drawing on courses offered both by the Honors College and by participating departments and/or colleges.

**Requirements**

To obtain this certificate, Honors College students will need to complete 18 credits, including:

**Core I Prerequisite:** (0 credit; one class meeting per week)

- **IDH 3639** Introduction to Service-Research

**Core II Requirement:** Honors-based service research course (6 credits)

Students may choose any one of the following year-long offerings (all numbered IDH 3034/4007, with varying section numbers), or new ones that may be added in the future as the service-research concept is developed further:

- Sweetwater Service-Research
- News Literacy: Making Sense of Community & World
- Aesthetic & Values: Art as Social Language
- The Everglades: Beginning to End
- Walk, Don’t Run
The Honors College has special relationships with the university's professional schools that offer students unique opportunities. A 3+3 program with the College of Law allows eligible students to begin law school in lieu of their fourth year of undergraduate study, and the College of Medicine guarantees Honors College graduates a personal interview for admission, subject to minimum eligibility requirements.

The Honors to FIU Grad School Program
The H2G Research Fellowship is open to selected Honors students who are strongly interested in doing advanced research and remaining at FIU for their graduate work. These students will be matched with faculty with ongoing funded research projects and become full members of the research team. Students earn a stipend of $4000 each semester they remain in good standing. Students completing the program are guaranteed an assistantship and stipend upon entering the FIU Graduate School.

Other Privileges
Because of the special nature of their contribution to the university, Honors College students enjoy other privileges as well, including:
- Priority registration
- "Graduated through the Honors College" on the transcript
- Extended library privileges, equivalent to graduate students
- Honors-only competitive scholarships
- Participation in community partnerships for service learning and engagement
- Suplemental funding to present at conferences
- Internships and mentoring
- Special recognition at commencement ceremonies

Course Descriptions

Definition of Prefixes
IDH – Interdisciplinary Honors
