

School of Integrated Science and Humanity (SISH)

Executive Director
Academic Associate Director
Associate Director
Administrative Assistant

Suzanna M. Rose
Walter Van Hamme
Melinda Hoder
Alan Verdecia

The School of Integrated Science and Humanity is a unique integration of academic departments, center and institutes dedicated to advancing science for the betterment of humanity. The School promotes awareness and discussion of social and ethical issues in human health, develops knowledge in the basic, behavioral and cognitive sciences, and provides leadership in creating partnerships that will expand local economic opportunities. SISH's multidisciplinary approach extends to local, national and international communities. See also <http://sish.fiu.edu>.

In the areas addressing human health, the School is a catalyst for strengthening, promoting and contributing to innovative research and teaching, and offers academic programs at the bachelor's, master's and doctoral levels in Chemistry and Biochemistry, Mathematics and Statistics, Philosophy, Physics, and Psychology; and a Master's of Arts in Liberal Studies. SISH is also home to many of the university's most prominent centers and institutes focusing on health-related issues, including the Biomolecular Sciences Institute, Center for Children and Families, the Center for Women's and Gender Studies, the Cognitive Neuroscience & Imaging Center, the International Forensic Research Institute, and the STEM Transformation Institute.

The School is housed in the contemporary Academic Health Complex (AHC-4, 351) at the Modesto A. Maidique Campus, with its glass windows on one side revealing science labs on every floor, and honeycomb architecture on the other side meeting the latest standards in solar design and efficiency.

SISH provides a focus for planned growth in the College of Arts & Sciences as a component of FIU's Academic Health Center, in partnership with the Colleges of Medicine, Public Health & Social Work, Nursing & Health Sciences, and Engineering and Computing.
