

Continuing Education-FIU Online

FIU's Academic Planning and Accountability-Continuing Education (APA-CE) consists of two major program areas: Credit Programs and Non-credit Programs. Programs offered through APA-CE extend the instructional and academic resources of the university by using innovative approaches including distance education, flexible class scheduling, customized training and off-campus academic programs. Local, state, national, and international communities are served with cost-effective, high quality and distinctive programs and services.

ACADEMIC CREDIT PROGRAMS

Academic Planning and Accountability-Continuing Education oversees courses and programs for academic credit offered by schools and colleges that are delivered online, off-campus, and on weekends.

These Continuing Education credit programs provide educational opportunities for working professionals and non-traditional students. In addition, these programs can be customized to meet employee-training needs at the worksite.

For more information on Continuing Education Credit Programs, please visit <https://continue.fiu.edu>

NON-CREDIT PROGRAMS

Academic Planning and Accountability-Continuing Education provides a variety of non-credit programs and is the official granting authority at FIU of general Continuing Education Units (CEUs). These non-credit programs maximize opportunities for lifelong learning and professional development to meet the business needs of the local, national, and international community. APA-CE's current portfolio of programs are developed and customized in a variety of formats and can be offered with flexible schedules lectured by experts in the field; thus, adding quantifiable value to organizations and the workforce.

For more information on Continuing Education Non-Credit Programs, please visit <https://continue.fiu.edu>.

Academic Planning and Accountability-Dual Enrollment (APA-DE)

DUAL ENROLLMENT

Dual enrollment is an effective acceleration mechanism that allows eligible middle and high school students to pursue an advanced curriculum related to their post-secondary academic interest. Successful completion of dual enrollment courses allows eligible students to simultaneously earn high school core or elective credit and post-secondary credit toward an associate degree or a baccalaureate degree. Dual Enrollment is available online, on-campus and at school locations.

For more information about Dual Enrollment, please visit <https://dualenrollment.fiu.edu>.
