

## Continuing Education

FIU's Academic Planning and Accountability-Continuing Education (APA-CE) consists of two major program areas: Credit Programs and Non-credit Programs. Programs offered through APA-CE extend the instructional and academic resources of the university by using innovative approaches including distance education, flexible class scheduling, customized training and off-campus academic programs. Local, state, national, and international communities are served with cost-effective, high quality and distinctive programs and services.

### ACADEMIC CREDIT PROGRAMS

APA-CE implements services and resources tied to academic credit courses and programs offered by schools and colleges. These courses and programs can be delivered online, off-campus, and on weekends.

These Continuing Education credit programs provide educational opportunities for working professionals and non-traditional students. In addition, these programs can be customized to meet employee-training needs at the worksite.

For more information on Continuing Education Credit Programs please visit <http://continue.fiu.edu>

### NON-CREDIT PROGRAMS

APA-CE develops and implements non-credit programs and is the official granting authority at FIU of general Continuing Education Units (CEUs). These non-credit programs maximize opportunities for lifelong learning and professional development to meet the business needs of the local, national, and international community. APA-CE's of programs are customized. Utilizing a variety of formats, these programs can be offered with flexible schedules by experts in the field; thus, adding quantifiable value to organizations and the workforce.

For more information on Continuing Education Non-Credit Programs, please visit <https://continue.fiu.edu>.

## **Academic Planning and Accountability-Dual Enrollment (APA-DE)**

### **DUAL ENROLLMENT**

The APA-DE program is the enrollment of an eligible secondary student or home education student in a post-secondary course creditable toward high school completion and an associate or baccalaureate degree. A dual enrollment secondary student is a student who is enrolled in grades six through 12 who would be able to meet eligibility criteria for participation in the Dual Enrollment program. As an acceleration mechanism, Dual Enrollment is available online, on-campus at FIU, and at school locations. For more information about Dual Enrollment, please visit <https://dualenrollment.fiu.edu/fiu/>
