

## Information Systems and Business Analytics

**Karlene Cousins**, *Chair, Associate Professor*  
**David Agogo**, *Assistant Professor*  
**Miguel Aguirre-Urreta**, *Associate Professor*  
**Dinesh Batra**, *Professor*  
**Lina Bouayad**, *Assistant Professor*  
**Min Chen**, *Assistant Professor*  
**Yan Chen**, *Assistant Professor and Academic Director, MS in Information Systems*  
**Gloria Deckard**, *Associate Professor*  
**S. Christopher Ellis**, *Instructor and Academic Director, Corporate MBA Program*  
**Pouyan Esmail Zadeh**, *Assistant Professor*  
**Paulo J. Gomes**, *Assistant Professor*  
**Manjul Gupta**, *Assistant Professor*  
**Sushil K. Gupta**, *Professor*  
**Hyeyoung Hah**, *Assistant Professor*  
**Attila J. Hertelendy**, *Instructor*  
**Keum S. Kang**, *Assistant Professor*  
**Richard Klein**, *Associate Dean, Landon Undergraduate School, College of Business; Professor;*  
**Christos P. Koulamas**, *Professor and Ryder Eminent Scholar*  
**George J. Kyparisis**, *Professor*  
**Cynthia LeRouge**, *Associate Professor and Academic Director, MS in Health Informatics and Analytics*  
**George Marakas**, *Professor and Director, Ph.D. Program*  
**Tala Mirzaei**, *Assistant Professor*  
**Manoel Oliveira**, *Senior Instructor*  
**Carlos Parra**, *Clinical Professor*  
**Peter Polak**, *Instructor*  
**Gladys Simpson**, *Senior Instructor*  
**Hemang C. Subramanian**, *Assistant Professor*  
**Debra VanderMeer**, *Associate Professor*  
**Nicole Wishart**, *Senior Instructor*  
**Weidong Xia**, *Associate Professor*

### Mission

The mission of the Department of Information Systems and Business Analytics (ISBA) is to provide students with the knowledge and ability to design, develop, implement, and use information systems that allow organizations to effectively solve problems within organizations; and to provide students with the knowledge and ability to analyze and use data for decision-making within organizations. The department offers courses in business analytics, business statistics, health informatics management information systems, operations management and project management, at both the graduate and undergraduate levels.

Students in information systems related graduate programs learn the intellectual frameworks and methods used in areas including business analytics, business process design, database management, data warehousing, global electronic commerce, enterprise-wide information systems, information security management, project management, and systems analysis and design (including object-oriented applications).

The Department offers a Master of Science in Health Informatics and Analytics (MSHIA), Master of Science in Information Systems (MSIS), and Management Information Systems (MIS) concentration within the

College of Business' Ph.D. in Business Administration program.

## Master of Science in Health Informatics and Analytics (MSHIA)

Our Master of Science in Health Informatics and Analytics is a fourteen month graduate degree program designed for information systems professionals, physicians, nurses, other clinical personnel and healthcare managers who want to increase their knowledge of health information technology and management of the complex social and organizational issues surrounding the increased emphasis on managing healthcare quality, efficiency and outcomes through information systems.

Health Informatics integrates the domains of information systems, such as data analytics, with the organizational domains of healthcare, including, the legal and policy environment, delivery processes, as well as leadership and management principles. The goal of this program is to educate effective developers, users, and managers of health information systems. Students will explore the design and use of the health information systems needed by hospital and system executives, government planners, public health officials, and other healthcare professionals. Courses will have both an academic and practical perspective, exposing students to both theoretical approaches and real world application.

### Admission Requirements

To be eligible for admission to the MSHIA degree program in the Chapman School, prospective students must:

1. Hold a U.S. Bachelor's degree or equivalent from an accredited college or university.
2. Submit a competitive score on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE). Waiver of the requirement could be considered if either a) the applicant has a minimum of four (4) years of professional experience directly related to the program or b) if the applicant already completed a graduate degree in a directly related field from an accredited university with a minimum of a 3.0 cumulative grade point average (GPA).
3. Have a minimum upper division grade point average (GPA) of 3.0.
4. Provide a personal statement on the motivation to attend the program, including personal and career goals.
5. Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version), or 213 on the computer-based TOEFL, or 6.5 overall of the International English Language Testing System (IELTS).
6. If applicant is a student in the FIU Graduate Certificate in Healthcare Management or FIU Graduate Certificate in Health Informatics programs, and has completed the first 12 credits with a GPA of 3.25 or higher, he or she may be eligible for admission to the MSHIA program. Appropriate courses from the Certificate program may be transferred into the MSHIA degree program.

7. Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum program requirements does not guarantee admission.

### Graduation Requirements

To graduate with the Master's degree, a student must:

1. Satisfy all University requirements for a Master's degree.
2. Meet the 36 hours required in the M.S. in Health Informatics and Analytics "Program of Study."
3. Earn an overall "B" (3.0) cumulative Grade Point Average.
4. No courses in which a graduate student earns a grade below "C" may be counted towards any Master's degree program in the Chapman School.
5. Completion Professional Development Seminars I-III (0 credits) offered through the College of Business.

### Program Format

Students will complete the program in 14 months. Students will complete this program as a cohort. The program will be offered online. Two courses are generally taken each eight-week term.

The students will be considered full time as within a "semester", if they complete 12 graduate credit hours.

The MSHIA degree consists of 12 courses (two cohort terms) within the semester.

### Required Courses

The following ten courses are required for the MSHIA degree:

|           |  |   |
|-----------|--|---|
| HIM 6682  | Quality and Outcomes Analytics                                 | 3 |
| HIM 6865  | Healthcare Database Systems                                    | 3 |
| ISM 6326  | Information Security and Compliance                            | 3 |
| HIM 6628  | Health Data Visualization                                      | 3 |
| HIM 5065  | Introduction to Health and Health Informatics                  | 3 |
| QMB 6357  | Business Statistical Analysis                                  | 3 |
| HIM 6685  | Clinical Information Systems                                   | 3 |
| HIM 6124C | Technical and Data Architectures and Standards for Health Care | 3 |
| HIM 6019  | Legal and Ethical Aspects of Healthcare                        | 3 |
| HIM 6517  | Healthcare Project Management                                  | 3 |

One of the following courses are required for the MSHIA degree:

|           |   |   |
|-----------|---|---|
| HIM 6125  | Healthcare Informatics Capstone   | 3 |
| HIM 6858C | Health Informatics/Analytics Practicum (proposed by student & subject to departmental approval) | 3 |

One of the following courses (selected at the Department's discretion for each cohort) are required for the MSHIA degree:

|          |  |   |
|----------|--|---|
| HIM 6694 | Consumer Health Informatics            | 3 |
| HIM 6937 | Special Topics                         | 3 |
| HIM 6858 | Health Informatics/Analytics Practicum | 3 |
| MAN 6245 | Organizational Behavior                | 3 |

Professional Development Seminars I, II, III

**Seminars will be mandatory, non-credit.**

For more information, please contact the Program Manager at [mshia@fiu.edu](mailto:mshia@fiu.edu) or (305) 348-0594.

## Master of Science in Information System (MSIS)

Our Master of Science in Information Systems (MSIS) is the only program of its kind designed with strategic direction from the top South Florida Chief Information Officers (CIOs) ensuring our program delivers knowledge critical to the success of future CIOs.

To better prepare students for senior managerial and executive roles, we offer an integrated curriculum that combines technical and IS/IT management skills, including electronic commerce management and strategy, database management, systems analysis and design, project management, and business analytics. This approach enables an understanding of the complexities of today's most critical business systems and an ability to manage IT resources to produce the best results for the organization.

1. Students complete the program in 12 to 14 months (classes Saturdays).
2. Students improve soft skills through numerous professional development seminars focused on leadership, team-building skills, oral and written presentation skills, and career preparation, while gaining experience in sought after technology skills. Additionally, students build a future network of highly-qualified professionals and peers within the IS/IT field.

### Admission Requirements

To be eligible for admission to the MSIS degree program in the Chapman School, prospective students must:

1. Hold a 4-year U.S. equivalent Bachelor's degree from an accredited college or university.
2. Submit a competitive score on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE). Waiver of the requirement could be considered if either a) the applicant has a minimum of four (4) years of professional experience directly related to the program or b) if the applicant already completed a graduate degree in a directly related field from an accredited university with a minimum of a 3.0 cumulative grade point average (GPA), or is entering a business master's program under a special agreement for admissions with specific foreign universities.
3. Have a minimum upper division grade point average (GPA) of 3.0.
4. Provide a personal statement on the motivation to attend the program, including personal and career goals
5. Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version) or 6.5 overall of the International English Language Testing System (IELTS).
6. If applicant is a student in the FIU Graduate Certificate in Business Analytics program, and has completed the first 12 credits with a GPA of 3.25 or higher, he or she may be eligible for admission to the MSIS degree program. Appropriate courses from the Certificate program may be transferred into the MSIS degree program.

7. Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum program requirements does not guarantee admission.

To complete the MSIS degree, students need to successfully complete all 10, three-credit hour courses for a total of 30 credit-hours, maintain a B average (3.0 GPA), complete mandatory Professional Development Seminars, and satisfy all University requirements for a Master's degree.

#### Core Courses

The following seven core courses are required for the MSIS degree:

|          |  |   |
|----------|--|---|
| ISM 6205 | Database Management                            | 3 |
| ISM 6316 | Project Management of Information Sciences     | 3 |
| ISM 6106 | Systems Analysis                               | 3 |
| ISM 6128 | Business Process Design                        | 3 |
| ISM 6307 | Management of the Information Systems Function | 3 |
| ISM 6338 | Information Systems Strategy and Governance    | 3 |
| ISM 6328 | Information Security Management                | 3 |

#### Elective Courses

To complete the MSIS degree students may take three courses selected at the Department's discretion for each cohort from the list of elective courses below. One of these electives must have a business application development component.

|          |  |   |
|----------|--|---|
| ISM 6024 | Managing Distributed Architecture                | 3 |
| ISM 6136 | Business Analytics Applications                  | 3 |
| ISM 6156 | Enterprise Information Systems                   | 3 |
| ISM 6208 | Data Warehousing                                 | 3 |
| ISM 6251 | Emerging Information Technologies                | 3 |
| ISM 6489 | E-business and Blockchain Applications           | 3 |
| ISM 6930 | Special Topics in Management Information Systems | 3 |
| ISM 6942 | MIS Internship                                   | 3 |
| QMB 6357 | Business Statistical Analysis                    | 3 |

Professional Development Seminars I, II, III

#### Optional Elective

|          |                |     |
|----------|----------------|-----|
| ISM 6942 | MIS Internship | 1-3 |
|----------|----------------|-----|

Students who fail more than one class may be dismissed from the MSIS degree program.

#### Professional Development Seminars

Seminars will focus on soft skills such as leadership, team building, oral presentation, and career exploration. There will be team-building activities, including classroom exercises in group decision-making and problem-solving. Challenging outdoor exercises help participants build the skills they will need to work together in the program and to succeed in today's team-based organizations. Students will also work with a presentation skills coach to improve the communication skills that are critical to managerial success.

Professional Development Seminars I, II, and III will focus on improving student's soft skills. Seminars will be mandatory, non-credit. Topics of Professional

Development Seminars are subject to change based on industry trends and demands.

For additional information, please visit <http://msis.fiu.edu> or contact the Program Manager at (305) 348-4347 or [msis@fiu.edu](mailto:msis@fiu.edu).

#### Program Format

Students will complete the program in 12 months with classes on Saturdays. Students will complete this program as a cohort. The program offers almost all classes in 8-week terms. Two to three courses each term. Students will be considered full time during a "semester", or two terms in the cohort, they will complete at least 12 graduate credit hours.

### Master of Science in Information Systems / Business Analytics Track

The Business Analytics Track of the Master of Science in Information Systems degree prepares students for careers such as business analysts, data analysts or business analytics managers. The Business Analytics Track provides student with a clear designation of their concentration in the field. The Business Analytics Track consists of 11 courses (33 credit hours) within the MSIS degree.

#### Required Core Courses

Students are required to complete all seven of the following core courses (21 credit hours)

|          |  |   |
|----------|--|---|
| ISM 6205 | Database Management                            | 3 |
| ISM 6316 | Project Management of Information Sciences     | 3 |
| ISM 6106 | Systems Analysis                               | 3 |
| ISM 6128 | Business Process Design                        | 3 |
| ISM 6307 | Management of the Information Systems Function | 3 |
| ISM 6338 | Information Systems Strategy and Governance    | 3 |
| ISM 6328 | Information Security Management                | 3 |

#### Required Track Courses

Students are required to compete all four of the following courses in the field of business analytics (12 credit hours)

|          |   |   |
|----------|---|---|
| QMB 6357 | Business Statistical Analysis             | 3 |
| ISM 6208 | Data Warehousing                          | 3 |
| ISM 6136 | Business Analytics Applications           | 3 |
| ISM 6404 | Business Data Visualization and Reporting | 3 |

To complete the MSIS degree, Business Analytics Track, students need to successfully complete all 11, three credit-hour courses for a total of 33 credit-hours, maintain a B average (3.0 GPA), complete mandatory professional development seminars, and satisfy all University requirements for a Master's degree.

### Master of Science in Information Systems/Business Cybersecurity Track

The Business Cybersecurity Track of the Master of Science in Information Systems degree prepares students for careers such as chief security officer, cybersecurity manager, cybersecurity analyst or privacy officer. The Business Cybersecurity Track provides students with a clear designation of their concentration in the field. The

Business Cybersecurity Track requires students to complete 11 courses (33 credits) within the MSIS degree.

**Required Core Courses**

Students are required to complete all seven of the following core courses (21 credit hours).

|          |  |   |
|----------|--|---|
| ISM 6205 | Database Management                            | 3 |
| ISM 6316 | Project Management of Information Sciences     | 3 |
| ISM 6106 | Systems Analysis                               | 3 |
| ISM 6128 | Business Process Design                        | 3 |
| ISM 6307 | Management of the Information Systems Function | 3 |
| ISM 6338 | Information Systems Strategy and Governance    | 3 |
| ISM 6328 | Information Security Management                | 3 |

**Required Track Courses**

Students are required to compete all four of the following courses in the field of business cybersecurity (12 credit hours).

|          |  |   |
|----------|--|---|
| ISM 6575 | Security Risk Management & Organizational Cyber Resilience | 3 |
| ISM 6325 | Ethical Hacking for Business                               | 3 |
| ISM 6327 | Protecting & Defending Business Digital Assets             | 3 |
| ISM 6326 | Information Security: Ethics, Regulation And Compliance    | 3 |

To complete the MSIS degree, Business Cybersecurity Track students need to successfully complete all 11, three-credit hour courses for a total of 33 credit-hours, maintain a B average (3.0 GPA), complete mandatory professional development seminars, and satisfy all University requirements for a Master’s degree.

**Master of Science in Information System/Master of Business Administration Joint Degree Program**

The Master of Science in Information Systems and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are offering a joint degree program culminating in both a Master of Business Administration (MBA), and a Master of Science in Information Systems degree (MSIS). Under the joint degree program, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree program will use existing faculty, courses, and resources. Important criteria relating to the joint degree program are as follows:

1. Candidates to the joint degree program must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Candidates deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.
2. Applications for a joint degree will not be accepted from candidates who have already completed either degree. MBA or MSIS students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.
3. Candidates must satisfy all requirements for each degree. The two degrees will have two – four

common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSIS courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSIS degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSIS curriculums.

**3.1 Joint Flex MBA/MSIS Degree**

To obtain MSIS/MBA through the Flex program, students must complete the following courses for a total of 66 credit hours as follows:

In the Flex MBA Program (33 credit hours)

|          |  |   |
|----------|--|---|
| ACG 6026 | Accounting for Managers                        | 3 |
| ACG 6175 | Financial Reporting & Analysis                 | 3 |
| BUL 6810 | Legal Environment                              | 3 |
| FIN 6406 | Corporate Finance                              | 3 |
| FIN 6446 | Competitive Strategy                           | 3 |
| MAN 6501 | Operations Management                          | 3 |
| MAN 6245 | Organizational Behavior                        | 3 |
| MAN 6726 | Strategic Management                           | 3 |
| MAN 6830 | Organizational Information Systems             | 3 |
| MAR 6805 | Marketing Management in the Global Environment | 3 |
| MAR 6816 | Corporate Simulation                           | 3 |
| QMB 6357 | Business Statistical Analysis                  | 3 |

In the MSIS program (33 credit hours):

|          |  |   |
|----------|--|---|
| ISM 6106 | Systems Analysis & Design                      | 3 |
| ISM 6205 | Database Management                            | 3 |
| ISM 6136 | Business Analytics Applications                | 3 |
| ISM 6307 | Management of the Information Systems Function | 3 |
| ISM 6208 | Data Warehousing                               | 3 |
| ISM 6128 | Business Process Design                        | 3 |
| ISM 6328 | Information Security Management                | 3 |
| ISM 6338 | Information Systems Strategy & Governance      | 3 |
| ISM 6316 | Project Management of Information Sciences     | 3 |
|          | MIS Elective                                   | 3 |
|          | MIS Elective                                   | 3 |

Professional Development Seminars (PDS) I, II, III

Two of the following courses (selected at the Department’s discretion for each cohort) are required for the MSIS Degree:

|          |  |   |
|----------|--|---|
| ISM 6024 | Managing Distributed Architecture                | 3 |
| ISM 6156 | Enterprise Information Systems                   | 3 |
| ISM 6251 | Emerging Information Technologies                | 3 |
| ISM 6489 | E-business and Blockchain Applications           | 3 |
| ISM 6138 | Managing Unstructured Data                       | 3 |
| ISM 6930 | Special Topics in Management Information Systems | 3 |
| ISM 6942 | MIS Internship                                   | 3 |

Optional Elective

|          |                |     |
|----------|----------------|-----|
| ISM 6942 | MIS Internship | 1-3 |
|----------|----------------|-----|

**3.2. Joint International MBA/MSIS Degree**

To obtain MS1S/MBA through the International program, students must complete the following courses for a total of

75 credit hours as follows:

In the IMBA program (42 credit hours):

|          |   |   |
|----------|---|---|
| ACG 6026 | 6026 Accounting for Managers                    | 3 |
| ACG 6175 | Financial Reporting & Analysis                  | 3 |
| BUL 6810 | Legal Environment of Business                   | 3 |
| FIN 6406 | Corporate Finance                               | 3 |
| FIN 6644 | Global Financial Strategy                       | 3 |
| MAN 6501 | Operations Management                           | 3 |
| MAN 6245 | Organizational Behavior                         | 3 |
| MAN 6726 | Strategic Management                            | 3 |
| MAN 6608 | International Business                          | 3 |
| MAN 6703 | Colloquium in Managing Organizational Ethics    | 1 |
| MAN 6679 | Master's Project                                | 3 |
| MAR 6805 | Marketing Management in the Global Environment  | 3 |
| MAR 6816 | Corporate Simulation                            | 3 |
| QMB 6357 | Business Statistical Analysis                   | 3 |
|          | Professional Development Seminars (PDS) II, III | 2 |

In the MSIS program (33 credit hours):

|          |  |   |
|----------|--|---|
| ISM 6106 | Systems Analysis & Design                      | 3 |
| ISM 6205 | Database Management                            | 3 |
| ISM 6136 | Business Analytics Applications                | 3 |
| ISM 6307 | Management of the Information Systems Function | 3 |
| ISM 6208 | Data Warehousing                               | 3 |
| ISM 6128 | Business Process Design                        | 3 |
| ISM 6328 | Information Security Management                | 3 |
| ISM 6338 | Information Systems Strategy & Governance      | 3 |
| ISM 6316 | Project Management of Information Sciences     | 3 |
|          | MIS Elective                                   | 3 |
|          | MIS Elective                                   | 3 |

Professional Development Seminars (PDS) I, II, III

Two of the following courses (selected at the Department's discretion for each cohort) are required for the MSIS degree:

|          |  |   |
|----------|--|---|
| ISM 6024 | Managing Distributed Architecture                | 3 |
| ISM 6156 | Enterprise Information Systems                   | 3 |
| ISM 6251 | Emerging Information Technologies                | 3 |
| ISM 6489 | E-business and Blockchain Applications           | 3 |
| ISM 6138 | Managing Unstructured Data                       | 3 |
| ISM 6930 | Special Topics in Management Information Systems | 3 |
| ISM 6942 | MIS Internship                                   | 3 |

Optional Elective

|          |                |     |
|----------|----------------|-----|
| ISM 6942 | MIS Internship | 1-3 |
|----------|----------------|-----|

### 3.3. Joint Professional MBA/MSIS Degree

To obtain MSIS/MBA through the Professional program, students must complete the following courses for a total of 72 credit hours as follows:

In the PMBA program (39 credit hours):

|          |                                |   |
|----------|--------------------------------|---|
| ACG 6026 | Accounting for Managers        | 3 |
| ACG6175  | Financial Reporting & Analysis | 3 |
| BUL 6810 | Legal Environment of Business  | 3 |
| FIN 6406 | Corporate Finance              | 3 |
| FIN 6446 | Competitive Strategy           | 3 |

|          |  |   |
|----------|--|---|
| FIN 6644 | Global Financial Strategy                      | 3 |
| MAN 6608 | International Business                         | 3 |
| MAN 6501 | Operations Management                          | 3 |
| MAN 6245 | Organizational Behavior                        | 3 |
| MAN 6726 | Strategic Management                           | 3 |
| MAR 6805 | Marketing Management in the Global Environment | 3 |
| MAR 6816 | Corporate Simulation                           | 3 |
| QMB 6357 | Business Statistical Analysis                  | 3 |
|          | Professional Development Seminars (PDS)        |   |

In the MSIS program (33 credit hours):

|          |  |   |
|----------|--|---|
| ISM 6106 | Systems Analysis & Design                      | 3 |
| ISM 6205 | Database Management                            | 3 |
| ISM 6136 | Business Analytics Applications                | 3 |
| ISM 6307 | Management of the Information Systems Function | 3 |
| ISM 6208 | Data Warehousing                               | 3 |
| ISM 6128 | Business Process Design                        | 3 |
| ISM 6328 | Information Security Management                | 3 |
| ISM 6338 | Information Systems Strategy & Governance      | 3 |
| ISM 6316 | Project Management of Information Sciences     | 3 |
|          | MIS Elective                                   | 3 |
|          | MIS Elective                                   | 3 |

Professional Development Seminars (PDS) I, II, III

Two of the following courses (selected at the Department's discretion for each cohort) are required for the MSIS degree:

|          |  |   |
|----------|--|---|
| ISM 6024 | Managing Distributed Architecture                | 3 |
| ISM 6156 | Enterprise Information Systems                   | 3 |
| ISM 6251 | Emerging Information Technologies                | 3 |
| ISM 6489 | E-business and Blockchain Applications           | 3 |
| ISM 6138 | Managing Unstructured Data                       | 3 |
| ISM 6930 | Special Topics in Management Information Systems | 3 |
| ISM 6942 | MIS Internship                                   | 3 |

Optional Elective

|          |                |     |
|----------|----------------|-----|
| ISM 6942 | MIS Internship | 1-3 |
|----------|----------------|-----|

#### Notes:

<sup>1</sup> Requirements for the Corporate MBA depend on track chosen. If a candidate has elected the option of a specialization, the requirements and shared/common courses for the Flex MBA will be used. Otherwise, the requirements and shared/common courses for the PMBA will be used.

<sup>2</sup> The Executive MBA and Professional MBA in Healthcare Management programs are not included as an option for the joint degree.

<sup>3</sup> Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate.

For additional information, contact the MBA office at (305) 348-0148 or the MSIS Office at (305) 348-6852.

### Master of Accounting/Master of Science in Information Systems Joint Degree Program

The School of Accounting and the MSIS program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are proposing a joint degree program culminating in both a Master in Accounting (MACC) and a Master of Information Systems (MSIS). Under the joint degree program, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree program will use existing faculty, courses, and resources. Important criteria relating to the joint degree program are as follows:

1. Candidates to the joint degree program must meet the entrance requirements established by each individual program. Candidates must indicate on their initial application their intention to pursue the joint degree option.
2. Applications for a joint degree will not be accepted from candidates who have already completed either degree.
3. Domestic undergraduate non-accounting degree holders; and international degree holders, regardless of major, will take the following courses, for a saving of 15 credits:
  - 24 credits at the 6000-level from the MSIS
  - 15 credits at the 5000-level from the MACC
  - 30 credits at the 6000-level from the MACC
4. Domestic undergraduate accounting degree holders from AACSB accredited universities may petition to waive the 5000-level MACC courses, saving an additional 15 credits.
5. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Directors of the MACC and MSIS degree programs may adjust these exact course requirements as a result of future changes to the MACC or MSIS programs.
6. Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first-degree program requirements as if the student had never been a joint degree candidate.

### Master of Science in Health Informatics and Analytics/Master of Business Administration in Healthcare Management (MSHIA/MBA-HM)

The Master of Science in Health Informatics and Analytics and the Professional MBA in Healthcare Management program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are offering a joint degree program culminating in both a Master of Business Administration (MBA) in Healthcare Management and a Master of Science in Health Informatics and Analytics degree (MSHIA). Under the joint degree program, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree

program will use existing faculty, courses, and resources. Important criteria relating to the joint degree program are as follows:

1. Candidates to the joint degree program must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.
2. Applications for a joint degree will not be accepted from candidates who have already completed either degree. MBA in Healthcare Management or MSHIA students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.
3. Candidates must satisfy all requirements for each degree. To obtain the MSHIA degree, the student will have to fulfill all the MSHIA program requirements. To obtain the MBA degree, the student will have to fulfill all the MBA program requirements. The two degrees will have four common, or overlapping, courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. Directors of the MBA and MSHIA degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSHIA curriculums.

**3.1. To obtain the MSHIA degree,** MBA in Healthcare Management students must complete a total of 24 credits as follows:

|          |  |   |
|----------|--|---|
| HIM 6682 | Quality and Outcomes Analytics             | 3 |
| ISM 6205 | Database Management                        | 3 |
| ISM 6326 | Information Security and Compliance        | 3 |
| ISM 6136 | Business Analytics Applications            | 3 |
| HIM 6685 | Clinical Information Systems               | 3 |
| ISM 6305 | Information Systems Planning               | 3 |
| ISM 6316 | Project Management of Information Sciences | 3 |
| ISM 6128 | Business Process Design                    | 3 |

From the MBA in Healthcare Management program the following 12 credit hours will be transferred:

|          |  |   |
|----------|--|---|
| BUL 6810 | Legal Environment of Business                  | 3 |
| MAN 6830 | Organizational Information Systems             | 3 |
| MAN 6245 | Organizational Behavior                        | 3 |
| MAN 6097 | Managerial Decision-Making in Health Economics | 3 |

**3.2. To obtain the MBA in Healthcare Management,** MSHIA degree students must complete a total of 24 credits as follows:

|          |  |   |
|----------|--|---|
| MAN 6501 | Operations Management                              | 3 |
| MAN 6098 | Management of Healthcare Finance and Reimbursement | 3 |
| MAR 6805 | Marketing Management in the Global Environment     | 3 |
| ACG 6026 | Accounting for Managers                            | 3 |
| BUL 6605 | Healthcare Fraud and Abuse Law and Regulation      | 3 |
| MAN 6726 | Strategic Management                               | 3 |
| FIN 6406 | Corporate Finance                                  | 3 |
| ACG 6175 | Financial Reporting and Analysis                   | 3 |

From the MSHIA program the following 12 credit hours will be transferred:

|           |   |   |
|-----------|---|---|
| HIM 5065  | Introduction to Health and Health Informatics | 3 |
| HIM 6019  | Legal and Ethical Aspects of Healthcare       | 3 |
| QMB 6357  | Business Statistical Analysis                 | 3 |
| MAN 6245  | Organizational Behavior                       | 3 |
| <b>OR</b> |   |   |
| HIM 6694C | Consumer Health Informatics                   | 3 |

4. Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate. With the joint degree program students will take a total of 60 credit hours to get both degrees. Without the joint degree program students will need to take 78 credit hours to get both degrees. Thus, MBA in Healthcare Management students who have taken twelve credits of MSHIA common courses may obtain an MSHIA degree with an additional 24 credits. MSHIA students who have taken twelve credits of a MBA in Healthcare Management common courses may obtain an MBA in Healthcare Management degree with only 24 credits.

For additional information, contact the MBA office at (305) 348-3256 or the MSHIA Office at (305) 348- 0594.

### MIS Concentration in the Ph.D. Program

The Department of Information Systems and Business Analytics (ISBA) offers a Management Information Systems (MIS) concentration in the doctoral program in Business Administration. The concentration requires completion of the following six courses (18 credit-hours):

|          |  |   |
|----------|--|---|
| GEB 7911 | Qualitative Research Methods in Business                 | 3 |
| ISM 7126 | Design Science Research                                  | 3 |
| ISM 7306 | Individual and Group Applications of IS Research         | 3 |
| ISM 7345 | Organizational and Strategic Applications of IS Research | 3 |
| ISM 7406 | Business Analytics Research                              | 3 |
| ISM 7931 | Organizational Theories in IS Research                   | 3 |
| ISM 7935 | Research in Information Systems                          | 3 |
| ISM 7936 | Systems and Software Engineering Research                | 3 |

Please contact the Ph.D. Program Director at (305) 779-7981 for further requirements and details.

### Graduate Certificate in Health Informatics

The objective of this graduate certificate is to provide individuals with a basic understanding of health information technology and management of the complex inherent within the healthcare sector.

#### Admission Requirements

Students must have an earned baccalaureate degree with a GPA of 2.75 or higher. This certificate is open to both degree-seeking students and those who are not currently enrolled at FIU.

#### Prerequisite:

Computer skills including: Word, Excel and PowerPoint

### Program of Study (15)

|          |   |   |
|----------|---|---|
| HIM 5065 | Introduction to Health and Health Informatics | 3 |
| QMB 6357 | Business Statistical Analysis                 | 3 |
| HIM 6865 | Healthcare Database Systems                   | 3 |
| HIM 6628 | Health Data Visualization                     |   |
| HIM 6682 | Quality and Outcomes Analytics                | 3 |

### Graduate Certificate in Healthcare Management

The objective of this graduate certificate is to provide individuals with a basic understanding of the context, management and reimbursement issues for health services organizations.

#### Admission Requirements

Students must have an earned baccalaureate degree with a GPA of 2.75 or higher. This certificate is open to both degree-seeking students and those who are not currently enrolled at FIU.

#### Prerequisite:

Computer skills including: Word, Excel and PowerPoint

#### Program of Study (15):

|          |  |   |
|----------|--|---|
| MAN 6095 | Management of Healthcare Organizations in the 21 <sup>st</sup> Century | 3 |
| HSA 6176 | Financing and Reimbursement of Health Systems                          | 3 |
| MAN 6830 | Organization Information Systems                                       | 3 |
| HSA 6156 | Economic and Decision Analysis in Health Services                      | 3 |
| MAN 6501 | Operations Management  | 3 |

### Graduate Certificate in Business Analytics

The objective of this graduate certificate is to provide individuals with a basic understanding of the application of statistical methods, techniques, and tools to large data sets proliferating across organizations, in an effort to address persistent and evolving business problems.

#### Admission Requirements

Students must have an earned baccalaureate degree with a GPA of 2.75 or higher. This certificate is open to both degree-seeking students and those who are not currently enrolled at FIU.

#### Prerequisite:

Computer skills including: Word, Excel and PowerPoint

#### Program of Study (15):

The certificate requires completion of the following courses (6 credit hours):

|          |                               |   |
|----------|-------------------------------|---|
| QMB 6357 | Business Statistical Analysis | 3 |
| ISM 6208 | Data Warehousing              | 3 |

The certificate also requires completion of one of the following courses (3 credit hours):

|          |                             |   |
|----------|-----------------------------|---|
| ISM 6205 | Database Management         | 3 |
| HIM 6865 | Healthcare Database Systems | 3 |

Additionally, the certificate requires completion of one of the following courses (3 credit hours):

|          |                                 |   |
|----------|---------------------------------|---|
| ISM 6136 | Business Analytics Applications | 3 |
| HIM 6682 | Quality and Outcome Analytics   | 3 |

Finally, the certificate requires completion of one of the following courses (3 credit hours):

|          |   |   |
|----------|---|---|
| ISM 6404 | Business Data Visualization and Reporting | 3 |
| HIM 6628 | Health Data Visualization                 | 3 |

## Graduate Certificate in Advanced Business Analytics

The objective of this graduate certificate is to provide individuals with an advanced understanding of the application of statistical methods, techniques, and tools to large data sets proliferating across organizations, in an effort to address persistent and evolving business problems. The proposed Graduate Certificate in Advanced Business Analytics focuses on developing the advanced skills required to pursue careers in big data, or as quantitative analysts. As public and private entities accumulate ever-increasing stores of data assets, their ability to efficiently and effectively analyze such assets constitutes a key core competency. Students will gain hands on experience applying statistical methods and techniques through use of decision support systems (DSS), expert systems (ES), business intelligence (BI) reporting tools, in addition to business analytics (BA) data mining tools and data visualization tools.

### Admission Requirements

Students must have an earned baccalaureate degree with a GPA of 3.0 or higher. This certificate is open to both degree-seeking students and those who are not currently enrolled at FIU.

### Prerequisite:

Graduate Certificate in Business Analytics or equivalent course work.

### Program of Study (15):

|          |  |   |
|----------|--|---|
| ISM 6136 | Managing Unstructured Data                 | 3 |
| ISM 6217 | Data Management                            | 3 |
| ISM 6316 | Project Management of Information Sciences | 3 |
| QMB 6603 | Quantitative Methods for Business          | 3 |
| ISM 6251 | Emerging Technologies                      | 3 |
