

Honors College

The Honors College at FIU is a community of outstanding students, dedicated scholars, and committed teachers who work together in an atmosphere usually associated with small private colleges, using the resources of a major state university.

The Honors College provides a broad interdisciplinary curriculum of unique courses and the chance to work closely with expert faculty and distinguished members of the larger community. Professors in the Honors College are committed to excellence and are carefully selected for their accomplishments as both teachers and scholars. Preparedness for graduate or professional study and for employment are significantly enhanced by exclusive Honors College research and study-abroad programs, as well as networking, service, and internship opportunities. The Honors College experience includes living learning communities, an emphasis on peer and faculty mentoring, community service, national conference participation, and a variety of active student organizations.

Students may pursue any major available at the university and at the same time complete the Honors College curriculum. The curriculum emphasizes critical, integrative, and creative thinking; group and independent research; oral presentation; and close contact between students and faculty.

The Honors College has special relationships with the university's professional and graduate schools that offer unique opportunities exclusively for Honors College students: a three-plus-three program with the College of Law allows eligible students to begin law school in lieu of their fourth year of undergraduate study, and an early admission program with the Herbert Wertheim College of Medicine.

In addition to the interdisciplinary curriculum, Honors College students enjoy many other benefits:

- Transcript notation: "Graduated through the Honors College"
- Priority registration
- Honors College scholarships
- Unique study-abroad programs
- Professional and leadership training
- Early Assurance Programs to medical school, law school, and select PhD programs at FIU
- Advanced Research and Creativity in Honors (ARCH) program, which pairs students with faculty mentors to conduct advanced research
- Career enrichment services with Honors-only job and internship opportunities
- Assistance to attend national and international conferences
- Student information technology centers and Honors Edge Innovation Lab
- Eligibility for membership in Honors College societies
- Graduate-level library borrowing privileges (full semester)
- Honors College housing and programming
- Community partnerships for service learning
