Certificate Programs

Certificates

Certificate Programs are structured combinations of courses with a common base of interest from one or more disciplines into an area of concentration.

Successful completion of a Certificate Program is entered on the student's transcript and records. Two types of certificates are awarded:

Academic Certificate

Awarded by an academic unit to a student at the time of awarding a bachelor's degree; or upon completion of the appropriate coursework to a student who already has a bachelor's degree.

An academic certificate shall not be awarded to a student who does not possess either a bachelor's degree or does not complete a bachelor's degree program. An academic certificate, to the greatest extent possible, is to be interdisciplinary in nature.

Professional Certificate

Awarded by an academic unit to an individual who completes the appropriate coursework in the area of concentration. The professional certificate does not need to be interdisciplinary or associated with a degree program. For details and course requirements, refer to the appropriate certificate director or academic department.

Certificate Program in Actuarial Studies

Coordinating Committee

Hassan Zahedi, Director, Statistics Julian Edward, Mathematics Steve Hudson, Mathematics

The Certificate in Actuarial Studies is designed to provide a focus for those students who are interested in pursuing a career in the actuarial sciences. The primary emphasis of the Certificate program is on the mathematical and statistical background that forms the foundation of the work in this area.

This certificate program is open to degree seeking students only. The program is most obviously suitable for those students who are majoring in Mathematics or Statistics. It would also be valuable for those who wish eventually to enter the actuarial field, but choose to major in an allied discipline, such as Business or Computer Science. In addition, it allows access to those students who are currently working in this area and wish to develop or upgrade their skills.

Upon completion of the following requirements, a student may apply for the Certificate in Actuarial Studies. The Certificate will be awarded at the time of awarding a Bachelor's degree, or upon completion of this work if the student already has a Bachelor's degree.

Agroecology Certificate Program

Kateel Shetty, Director, Earth and Environment Mahadev Bhat, Earth and Environment Krish Jayachandran, Earth and Environment Amir Khoddamzadeh, Earth and Environment Suzanne Koptur, Biological Sciences Gail Hollander, Politics and International Relations Adriana Campa, Dietetics and Nutrition

This interdisciplinary program is aimed at providing students with an opportunity to learn problems and issues that emerge from the interface between agriculture, natural ecosystems and urban areas. Students will gain an appreciation of how traditional agricultural production systems will influence the quality of natural ecosystems

and human environment, and also what ecological and developmental pressure that agriculture comes under from the human system. The program will emphasize natural and economic services that are provided by large agricultural areas interspersed between urban and natural areas. Students will learn structural changes that are necessary within agriculture in order to make it ecologically sustainable and community supported. The program includes farm- and field-level experiential learning through internships, field demonstrations and minor experiments. This certificate program is open to degreeseeking students only.

Requirements

Prescribed Courses and Other Requirements:

The Agroecology Certificate Program requires successful completion of the following three categories of course work, with a total of 17-18 credit hours:

1. Agroecology core requirement:

EVR 4274	Sustainable Agriculture – GL	3
EVR 4272	Agroecology – GL	3

2. Agricultural internship or problem analysis: Take any one of the following:

2
th And
2
2
Biology 2
2

As part of the above courses, student must complete a farm-, field-or lab-based internship that may involve working on farms, carrying out agro-ecological field observations, carrying out agricultural science lab experiments, conducting geo-spatial modeling, or conducting agriculture-related socio-economic analysis. Student will produce a report based on the internship experience. Students also will have the option of doing internship or conducting agrocology science experiments at USDA's Agricultural Research Service, Miami or other research or education institutions.

3. General agricultural/environmental science and social studies electives:

Take any three

HOS 3012	Introduction to Horticulture	3
EVR 4592	Soils and Ecosystems	3
EVR 3723	Natural Resources Valuation and

The Certificate Committee will consider other courses toward the elective requirement on a case-by-case basis. Up to two courses taken at Miami Dade College or other colleges in the relevant areas of agricultural sciences, horticulture, ecology, and environmental sciences will count toward the general agricultural/environmental science and social studies elective requirement.

Biodiversity Conservation and Management Certificate Program

Joel Heinen, Director, Earth and Environment

The Undergraduate Certificate in **Biodiversity** Conservation and Management draws on areas of strength within the Department of Earth and Environment and the Department of Biological Sciences (College of Arts, Sciences and Education) to provide students with specialized knowledge about managing and conserving the earth's biological resources. It is designed for students who seek careers in agencies that manage and conserve biological resources, for people in the private sector who seek specialized knowledge in this area, for educators seeking advanced training, or for others interested in the topic. The certificate is managed by the Department of Earth and Environment and the Biodiversity and Conservation Certificate Committee. This certificate program is open to degree-seeking students only.

Admission Requirements

Students should have completed a minimum of 2 courses in general biology and one course in ecology as a prerequisite to the program.

Program Requirements

Students are required to take 18 credit hours of course work outlined below. Other related courses may be approved subject to consideration by the program director and committee on a case by case basis.

Coastal and Marine Affairs Certificate Program

Ricardo Gonzalez, Director, Global and Sociocultural Studies

Coordinating Committee John Berry, Chemistry and Biochemistry Richard Brinn. Biological Sciences Young Rae Choi, Global and Sociocultural Studies Michael Heithaus, Biological Sciences Diann Newman, Hospitality Management Neptune Srimal, Earth & Environment

The purpose of the certificate in Coastal and Marine Affairs is to provide students with a broad multidisciplinary approach to the subject that includes courses not only from the sciences, but also the social sciences, humanities, arts, and the professional schools. In addition to the courses listed below, new courses are being added to support this theme as the Biscayne Bay Campus develops a new coastal environmental focus. Students should consult with the certificate director to identify new courses which may also be used to satisfy these requirements. This certificate program is open to degree-seeking students only.

Course Requirements

The certificate requires a total of 18 credit hours, from the following list:

Environmental Studies Certificate Program

Mahadev Bhat, Director, Earth and Environment

Coordinating Committee Kevin Hill, Politics and International Relations Suzanne Koptur, Biology Rod Neumann, Politics and International Relations Patricia Houle, Earth and Environment

The Certificate Program in Environmental Studies is designed to provide degree-seeking students in various majors with the unique perspective of interdisciplinary ecological education to both enrich and expand the breadth of their primary training. The Certificate seeks to provide participants with an analytic basis for understanding the milieu of local and global environmental problems and processes.

The program requires no prerequisite and is complementary to majors in all disciplines and schools at the University. A grade of "C" or better is required for all courses.

Requirements

The curriculum for the Environmental Studies Certificate consists of six courses (18-20 credits).

I. <u>Two</u> Environmental Science Courses:

EVR 3011	Environmental Resources and Pollution
	or
GEO 3510	Earth Resources
EVR 3013/L	Ecology of South Florida and Lab
Students with s	cience backgrounds should take instead
two environment	al science courses from the following:

Ethics, Big Data & Artificial Intelligence

Clinton Castro, Philosophy

This program offers a course of studies in the ethics of big data and artificial intelligence. The program seeks to develop a curriculum which will study these technologies and their effects from a variety of perspectives. From computer science, mathematics and statistics, and philosophy, we offer courses that give students the technical grounding they need to understand how big data and artificial intelligence work. From philosophy, we offer courses that give students the foundations they need to understand the ethical significance of these technologies. This certificate program is open to degree-seeking students only.

- The curriculum for the Ethics, Big Data & Artificial Intelligence Certificate consists of six courses (18 credits). It requires a minimum of five (3-credit) courses drawn from the two lists stipulated below:
 - 1) Descriptive Foundations and
 - 2) Normative Foundations
- 2. At least one course from each list must be taken.
- 3. At least one starred* course must be taken
- 4. Keystone course: PHI 3681 Ethics, Big Data & Artificial Intelligence in addition to the five other 3-credit courses.

Exile Studies Certificate Program

James Sutton, Acting Director and Associate Professor, English

Coordinating Committee

Michael Patrick Gillespie, Professor, English Bruce Harvey, Associate Professor, English Tometro Hopkins, Associate Professor, Linguistics Kenneth Johnson, Associate Professor, English Asher Z. Milbauer, Professor, English

The Exile Studies Certificate Program will provide grounds for entry into the field of otherness through the reading of literary texts created by authors from around the world and suggest venues for comprehension of human differences and commonalities. Literature, as one of the most important forms of human activity, synthesizes and particularizes the rich often traumatic experiences of transplantation. It "has often acted as a sort of deep bridge across geographical borders, cultural mentalities, and ideological divides." Studying the works of transplanted writers through the lenses of scholarly disciplines such as social sciences, arts and humanities, students in the Exile Studies Certificate Program explore the far-reaching universal implications of the phenomenon of exile. This certificate program is open to degree-seeking students only.

The curriculum for the Exile Studies Certificate consists of six courses (18 credits).

Film Studies Certificate Program

The Film Studies Certificate Program enables students to obtain an interdisciplinary concentration in film studies. The certificate program will enable students to study this important field in a rigorous systematic fashion. Film is the major art form and communication medium that transmits culture, influences society, and both reflects and shapes human conduct. Furthermore, film links diverse cultures through depiction of national societies and through language exposure. The Certificate in Film Studies will therefore give recognition to a significant medium that generates innovative theoretical, historical, literary and creative methodologies. The certificate will enhance interdisciplinary connections among Modern Languages, English, Sociology, Anthropology, Architecture, Visual Arts, History, Religious Studies and other departments. Students will have a unique opportunity to access new films, film archives, film makers, internships and related benefits. This certificate will complement studies in other fields and enable students to obtain an intellectual background in the theories and methodologies of film culture. Moreover, it will enhance students' visual literacy and competency. This certificate program is open to degree-seeking students only.

This program will require 18 credit-hours (6 courses) from the following certificate course listing, or others approved by the certificate program advisor. These courses should be understood as a partial list; students should consult with the advisor of the certificate program about current course offerings. Students are required to take a minimum of two courses from departments other than English.

Forensic Science Certificate Program

Anthony P. DeCaprio, Director, Chemistry/IFRI

Coordinating Committee Jose R. Almirall, Chemistry/IFRI W. Clinton Terry, Criminal Justice Jeffrey D. Wells, Biological Sciences

Administered by the International Forensic Research Institute (IFRI) the Certificate in Forensic Science is designed to provide a focus for those students who are interested in pursuing a laboratory career in the forensic sciences. The program is available to FIU B.S. students majoring in chemistry or biology who wish to enter the field of forensic science. The program also allows FIU B.A. students and other persons in the community who have already earned a B.S. or B.A. in chemistry, biology, or a natural science from another institution to work toward and receive a Certificate in Forensic Science. The FIU Certificate in Forensic Science program is accredited by the Forensic Science Education Programs Accreditation Commission (FEPAC) provided that it is accompanied by a B.S. degree in chemistry or biology from FIU.

The field of forensic science is interdisciplinary and requires significant training in the natural sciences. The prerequisites for admission into the Forensic Science Certificate Program are as follows: 1 calculus course, 1 statistics course, 1 general biology course with lab, 2 physics courses with labs, 2 general chemistry courses with labs, 2 organic chemistry courses with labs, 1 analytical chemistry course with lab, and 1 biochemistry course. Upon completion of the prerequisites and the following additional forensic coursework, the student may be awarded the Certificate. The certificate will be awarded at the time of awarding the Bachelor's degree, or upon completion of this work if the student already has a Bachelor's degree. The program consists 19-20 credits as detailed below. This certificate is open to degree- and nondegree seeking students only.

Health Humanities Certificate Program

Coordinating Committee

Jessica Adler, History and Public Health M. Alexandra Cornelius, Center for Women's and Gender Studies Mark Padilla, Global and Sociocultural Studies Laurie Shrage, Philosophy Paul Feigenbaum, English

The Certificate in Health Humanities provides a curricular structure through which Humanities, Social Science, Public Health, Nursing, Pre-Med and Pre-Health Professions majors may study medical and health related issues from interdisciplinary perspectives. Students will study health, medicine, and healing in Humanities based courses already offered in English, Global Sociocultural Studies, History, The Honors College, Liberal Studies, Philosophy, and Psychology. Students who earn the certificate will share across disciplines their genuine interest in the transdisciplinary field of Health Humanities, develop research and analytical skills, acquire expertise in communicating with diverse communities, and concretize career pathways in professions associated with Health Humanities and health care. The Certificate in Health Humanities is ideal not only for students who plan to pursue careers in public health, nursing, and medicine, but also for students interested in studying health concerns

from historical, literary, anthropological, and other humanities based perspectives.

Law, Ethics and Society Certificate Program

Kenton Harris, Director

Coordinating Committee Sean Allen-Hermanson, Philosophy Paul Warren, Philosophy

This program offers a course of studies in the broad field of normative or value issues. The program seeks to develop a curriculum which will study these issues from a variety of perspectives. From philosophy we offer courses in ethical theory, social and political theory and various applied ethical courses-courses in medical ethics, business ethics, environmental ethics and so on. From political science the student sees how normative issues are considered in law and politics. In this context it is appropriate to have courses dealing with constitutional interpretation of rulings like affirmative action, environmental regulation and the like. From sociology and anthropology, psychology, and Women and Gender Studies, the student takes courses dealing with how values are incorporated in our society and how such values compare to other societies around the world. This certificate program is open to degree-seeking students

Linguistic Studies Certificate Program

Ana Luszczynska, Interim Program Director

Coordinating Committee

Melissa Baralt, Modern Languages Jean-Robert Cadely, Modern Languages Phillip M. Carter, English Tometro Hopkins, English Yaobin Liu, English Peter Machonis, Modern Languages Bennett Schwartz, Psychology Mehmet Yavas, English

In addition to an M.A. in Linguistics, the Linguistics Program at Florida International University offers a Certificate in Linguistics. The Certificate is designed to meet the needs of those who have a general interest in linguistics, as well as those for whom work in linguistics would assist in career planning or advancement. Both undergraduate and graduate students are eligible to earn the certificate. This certificate program is open to both degree- and non-degree seeking students.

A student can acquire a Certificate in Linguistic Studies by successfully completing at least six courses in linguistics or linguistics-related courses, totaling eighteen credit hours. Students should consult a certificate advisor in selecting courses.

Requirements

All students <u>must</u> complete one introductory course and one structure course from the courses listed below for a total of six credit hours:

A minimum of one course from each of the following groups:

Introductory Courses

LIN 3010	General Linguistics	3
LIN 3013	General Linguistics	3
LIN 5018	Introduction to Linguistics	3

Structure Courses

LIN 4680	Modern English Grammar	3
FRE 4800	French Morphology	3
SPN 4802	Contrastive Syntax	3
LIN 5501	English Syntax	3

Four additional courses: (12)

In addition to the required courses stated above, all students must complete an additional four courses totaling twelve credits. Any course with an LIN prefix fulfills this requirement with the exception of LIN 3670 - Grammatical Usage. Linguistics courses with FOL, FRE, POR, and SPN prefixes also fulfill this requirement. Permission must be received from the Program Director to take courses with these prefixes. PHI 4221 (Philosophy of Language) and MHF 4302 (Mathematical Logic) also fulfill this requirement.

In addition to the requirements noted above, all of the requirements for obtaining a bachelor's degree from the University must be met, or the student must already possess a bachelor's degree.

With the advice of the Coordinating Committee, the student is encouraged to attain some degree of proficiency in a language other than his or her native language.

A Coordinating Committee representing various fields advises students and grants the Certificate.

Professional and Public Writing Certificate Program

Kimberly Harrison, Director of Writing Programs Maheba Pedroso, Certificate Director

The Undergraduate Certificate in Professional and Public Writing is an 18-hour program open to degree-seeking students only. Firmly grounded in rhetoric, the certificate provides an opportunity for students interested in improving their writing skills in preparation for their professional careers and civic responsibilities. The Women's and Gender Studies Undergraduate Certificate provides an opportunity for students to integrate scholarship about women and gender differences from a variety of disciplines into a coherent program of study. This certificate program is open to degree-seeking students only. The Certificate Program includes a core of required courses central to an understanding of gender issues in a social and historical context. The courses provide a basic grounding in Women's and Gender Studies that should be useful in many majors and in preparation for graduate study and professional training. The core courses are supplemented by a variety of electives to be chosen according to the student's specific interests. Students may enroll in the Certificate Program or take courses as electives. For a list of course offerings, see the section 'Academics' on our website at: http://cwas.fiu.edu/.

The program also offers a Bachelor of Arts in Women's and Gender Studies. For information about the major,

refer to the Women's and Gender Studies section in the Arts and Sciences undergraduate major section.

The Center is located in DM 212, Modesto A. Maidique Campus, (305) 348-2408. Students may contact the Center for Women's and Gender Studies at the above location, or by email: <u>wstudies@fiu.edu</u>.
