Information Systems and Business Analytics

Karlene Cousins, Professor and Department Chair
David Agogo, Assistant Professor
Miguel Aguirre-Urreta, Associate Professor
Dinesh Batra, Professor
Lina Bouyayd, Associate Professor, Knight Ridder Research Fellow and Director, MBA in Business Analytics
Min Chen, Associate Professor and SunTrust Bank Professor
Yan Chen, Associate Professor, Ryder Eminent Scholar Chair in Management Information Systems, and Director, MS in Information Systems
Gloria Deckard, Associate Professor
Edward Duran, Instructor
S. Christopher Ellis, Associate Teaching Professor
Pouyan Esmaeil Zadeh, Assistant Professor, and Knight Ridder Research Fellow
Paulo J. Gomes, Assistant Professor and PayCargo Fellow
Manjul Gupta, Associate Professor, and Ryder Eminent Scholar Chair in Management Information Systems
Sushil K. Gupta, Professor and PayCargo Professor
Hyeyoung Hah, Assistant Professor
Attila J. Hertelendy, Associate Teaching Professor and PayCargo Fellow
Richard Klein, Professor and Associate Dean, Landon Undergraduate School of Business
Christos P. Koulamas, Professor and Ryder Eminent Scholar Chair in Management Information System
George J. Kyparisis, Professor
Cynthia LeRouge, Professor and Ryder Eminent Scholar Chair in Management Information Systems
George Marakas, Professor and Director, Doctoral Program
Tala Mirzaei, Assistant Professor, Knight Ridder Research Fellow, and Director, MS in Health Informatics and Analytics
Carlos Parra, Clinical Professor
Peter Polak, Associate Teaching Professor
Dasaratha V. Rama, Professor
Carrie Sanchez, Instructor
Sebastian Schuetz, Assistant Professor
Gladys Simpson, Associate Teaching Professor
Hemang C. Subramanian, Associate Professor
Debra VanderMeer, Professor
Nicole Wishart, Associate Teaching Professor and Director, ATOM Think Tank
Weidong Xia, Professor

Mission
The mission of the Department of Information Systems and Business Analytics (ISBA) is to provide students with the knowledge and ability to design, develop, implement, and use information systems that allow organizations to effectively solve problems within organizations; and to provide students with the knowledge and ability to analyze and use data for decision-making within organizations. The department offers courses in business analytics, business statistics, health informatics, information security, management information systems, operations management, and project management at both the graduate and undergraduate levels.

Curriculum Educational Objectives
By graduation, students are expected to be able to:
1. Recognize and analyze business problems and opportunities, apply systems development methodologies to elicit and analyze customer requirements.
2. Propose information systems-based solutions that are technically sound, economically feasible, and organizationally viable.
3. Communicate, orally and in writing, information systems solutions to the various stakeholders.
4. Use information systems to provide customers with the data, information, and knowledge to make decisions.
5. Develop state of the art information technology skills in the contemporary and emerging dynamic and complex business environment.
6. Collaborate in a team to participate in or manage complex information-based business projects.

BBA in Business Analytics
Undergraduate business students opting to pursue a BBA in Business Analytics (BA) will gain a solid foundation in the application of statistical methods, techniques, and tools to analyze large data sets. The Business Analytics program provides students with the background needed to apply statistical methods and techniques through use of decision support systems (DSS), expert systems (ES), business intelligence (BI) reporting tools, and business analytics (BA) data mining tools. Graduates will be prepared for entry-level business analytics and reporting positions.

Degree Program Requirements (120 credit hours)

Lower-Division/Business Pre-Core 60 hours
Upper-Division/Business Core 27 hours
Major Courses 21 hours
Electives 12 hours

Lower Division/ Business Pre-Core
The “General Information” section in this catalog describes the lower division and business pre-core requirements.

Upper Division/Business Core
The College’s Business Core Requirements are listed in the first section of this “College of Business” chapter.

Major Courses
Students are required to complete all of the following
Major Courses (18 credit hours)
ISM 4151 Managing Digital Services and Innovation 3
ISM 4210 Data Base Applications 3
ISM 4211 Database Systems and Physical Design 3
ISM 4400 Managerial Information Analysis 3
ISM 4402 Business Intelligence and Reporting 3
ISM 4420 Business Analytics 3
Students are also required to complete one of the following courses (3 credit hours).
ISM 4314 Project Management 3
or
The College’s Business Core Requirements are listed in the first section of this “College of Business” chapter.

**Major Courses**

Students are required to complete all of the following Major Courses (18 credit hours).

- ISM 3153  Business Process Analysis 3
- ISM 3230  Business Application Development 3
- ISM 4113  Systems Analysis and Design 3
- ISM 4151  Managing Digital Services and Innovation 3
- ISM 4210  Database Applications 3
- ISM 4220  Business Telecommunication Systems 2
- ISM 4323  Information Systems Security 1

Students are also required to complete one of the following courses (3 credit hours).

- ISM 4314  Project Management 3
- MAN 4583  Project Management 3

**Electives**

Students may take any four electives (12 credits).

Recommended Department of Information Systems and Business Analytics electives include the following:

- ISM 3949  Information Systems Internship I 3
- HIM 4656  Health Information Systems Management 3
- ISM 3153  Business Process Analysis 3
- ISM 3230  Business Application Development 3
- ISM 3949  Information Systems Internship II 1-3
- ISM 4053  Interface Design for Business Applications 3
- ISM 4054  Web Application Development 3
- ISM 4113  Systems Analysis and Design 3
- ISM 4154  Business Application Integration 3
- ISM 4220  Business Telecommunication Systems 2
- ISM 4323  Information Systems Security 1
- ISM 4340  Organizational Impacts of Information Systems 1
- ISM 4949  Information Systems Internship II 1-3

**Academic Standards**

To progress into upper-division Business Analytics Major courses, students must complete the seven lower division Business Common Prerequisite Courses (21 credit hours) with (1) a C or better (2) in two attempts or fewer, and with (3) a GPA of 2.5 or greater for the set of seven courses. These seven courses (21 credit hours) include, six credit hours of accounting; six credit hours of economics; three credit-hours of business calculus; three credit-hours of business statistics; and three credit-hours of computer applications. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment. Further, it is also strongly recommended that all students pursuing a BBA in Business Analytics (BA) join the student chapter of the Association for Information Systems (AIS at FIU) and participate actively in organization sponsored events.

**BBA in Information Systems**

Undergraduate business students opting to pursue a BBA in Information Systems (IS) will gain a solid foundation in the design, use, and management of databases, enterprise systems, information security and telecommunications technology. The IS program provides students with the background needed to give informational support for decision-making through business analytics and to understand complex project management initiatives.

Graduates will be prepared for entry-level positions in the information systems field, either in user- or system-oriented departments.

**Degree Program Requirements (120 credit hours)**

- **Lower-Division/Business Pre-Core** 60 hours
- **Upper-Division/Business Core** 27 hours
- **Major Courses** 21 hours
- **Electives** 12 hours

**Lower Division/ Business Pre-Core**

The “General Information” section in this catalog describes the lower division and business pre-core requirements.

**Upper Division/Business Core**

The Department of Information Systems and Business Analytics (ISBA) requires that students receive a grade of “C” or higher in all major courses, and a passing grade in business electives in order to remain in the degree program. Students pursuing an Information Systems (IS) degree must earn a grade of “C” or higher in ISM 3230. This course cannot be attempted more than twice. Drops after the add/drop period, which result in a DR grade, are considered an attempt in the course and count as an unsuccessful enrollment. Further, it is also strongly recommended that all students pursuing a BBA in Information Systems (IS) join the student chapter of the Association for Information Systems (AIS at FIU) and participate actively in organization sponsored events.

**Business Analytics Track**

The Department of Information Systems and Business Analytics (ISBA) offer a Business Analytics Track to students pursuing a degree in Information Systems (IS). The track focuses on developing the essential skills required to pursue careers such as big data, or quantitative data analysts. As public and private entities accumulate ever-increasing stores of data assets, their ability to efficiently and effectively analyze such assets constitutes a key core competency. Students pursuing the
track will specialize in the application of statistical methods, techniques, and tools to large data sets proliferating across organizations, in an effort to address persistent and evolving business problems. Students will gain hands on experience applying statistical methods and techniques through use of decision support systems (DSS), expert systems (ES), business intelligence (BI) reporting tools, and business analytics (BA) data mining tools. The Business Analytics Track consists of 7 courses (21 credit hours). Students with a declared second major in Business Analytics may not pursue the IS with Business Analytics Track. Additionally, students pursuing a Minor in Business Analytics may not pursue the IS with Business Analytics Track. Students are required to receive a grade of "C" or higher in each course.

**Required Track Courses**

Students are required to complete all four of the following Major Courses (12 credit hours).

- ISM 4151 Managing the Digital Services and Innovation 3
- ISM 4210 Database Applications 3
- ISM 4400 Managerial Information Analysis 3
- QMB 3200 Business Statistics and Analysis I 3

Students are required to complete all three of the following Upper Division Business Electives (9 credit hours).

- ISM 4211 Database Systems and Physical Design 3
- ISM 4402 Business Intelligence and Reporting 3
- ISM 4420 Business Analytics 3

**Business Information Security Track**

The Department of Information Systems and Business Analytics (ISBA) offer a Business Information Security Track to students pursuing a degree in Information Systems (IS). The track focuses on developing the key skills needed to pursue careers as information security, or cyber-security analysts or specialists within modern business organizations. Information security analysts plan, implement, and monitor security measures to protect organizations’ information systems and key data assets. Given the ever-increasing number of incidents plaguing business organizations, their responsibilities are continually expanding and changing. The Business Information Security Track consists of 8 courses (21 credit hours). Students are required to receive a grade of “C” or higher in each course.

**Required Track Courses**

Students are required to complete all of the following Major Courses (12 credit hours).

- ISM 4113 Systems Analysis and Design 3
- ISM 3230 Business Application Development 3
- ISM 4220 Business Telecommunication Systems 2
- ISM 4323 Information Systems Security 1

Students are also required to complete one of the following courses (3 credit hours).

- ISM 4314 Project Management 3
- MAN 4583 Project Management 3

Students are required to complete all three of the following Upper Division Business Electives (9 credit hours).

- ISM 4053 Interface Design for Business Applications 3
- ISM 4054 Web Application Development 3
- ISM 4154 Business Application Integration 3

**Business Systems Track**

The Department of Information Systems and Business Analytics (ISBA) offer a Business Systems Track to students pursuing a degree in Information Systems (IS). The track focuses on developing the necessary skills required to pursue careers as business/systems analysts within IS departments or consulting organizations. Systems analysts study organizations’ current information and computer systems as well as procedures, subsequently designing information systems solutions that help organizations operate more efficiently and effectively. These professionals bring business and information technology together by understanding the needs and limitations of both. The Business Systems Track consists of 7 courses (21 credit hours). Students are required to receive a grade of “C” or higher in each course.

**Required Track Courses**

Students are required to complete all of the following Major Courses (9 credit hours).

- ISM 3230 Business Application Development 3
- ISM 4113 Systems Analysis and Design 3
- ISM 4220 Business Telecommunication Systems 2
- ISM 4323 Information Systems Security 1

Students are also required to complete one of the following courses (3 credit hours).

- ISM 4314 Project Management 3
- MAN 4583 Project Management 3

Students are required to complete all three of the following Upper Division Business Electives (9 credit hours).

- ISM 4053 Interface Design for Business Applications 3
- ISM 4054 Web Application Development 3
- ISM 4154 Business Application Integration 3

**Combined BBA in Business Analytics /Master of Science in Information Systems - Business Analytics Track Degree Pathway (BA/MSIS-BA)**

The Combined Bachelor of Business Administration in Business Analytics /Master of Science in Information Systems – Business Analytics Track Degree Pathway (BA/MSIS-BA) is designed for outstanding undergraduate students interested in continuing studies beyond their baccalaureate degree. The pathway provides a strong base of knowledge and skills in business analytics, and at the same time accelerates completion of the Master of Science in Information Systems degree. Students may take advantage of the overlap of courses in the BA and MSIS-BA programs to receive their MSIS degree in a shorter period than might otherwise be possible.

A student admitted to the Degree Pathway will be considered to have undergraduate status until conferral of their BBA in Business Analytics degree. Upon conferral of their undergraduate degree, the student will be granted graduate status.
Admission Requirements

1. Students must be enrolled in the BBA in Business Analytics (BA) degree program.
2. Students must have completed at least 75, but no more than 90, credits of coursework.
3. Students must have completed ISM 4400 or equivalent with a B or better.
4. Students must have an overall (transfer and FIU) GPA of 3.34 or higher.
5. Students must have two letters of recommendation, with at least one from a member of the FIU Department of Information Systems and Business Analytics.

General Requirements

1. Students must maintain a GPA of 3.0 or greater to remain in the Degree Pathway.
2. BBA in Business Analytics (BA) degree must be awarded before the Master of Science in Information Systems – Business Analytics Track degree.
3. No grade below “C” will be accepted in any course taken to satisfy graduate program requirements.
4. Grade requirements for the Master of Science in Information Systems – Business Analytics Track apply to courses counted toward the Master of Science in Information Systems – Business Analytics Track degree.
5. Up to 4 courses (12 credits) may be used in satisfying both the BBA in Business Analytics and Master of Science in Information Systems – Business Analytics Track degree requirements.
6. Students must fulfill the degree requirements of both the BBA in Business Analytics and Master of Science in Information Systems – Business Analytics Track degree programs, with all overlapping courses approved by both graduate program director and undergraduate advisors before students enroll in such courses.

Combined BBA in Information Systems/Business Information Security Track/Master of Science in Information Systems/Business Cybersecurity Track Degree Pathway (BIS/MSIS-Cybersecurity)

The Combined Bachelor of BBA in Information Systems/Business Information Security Track/Master of Science in Information Systems/Business Cybersecurity Track Degree Pathway (BIS/MSIS-Cybersecurity) is designed for outstanding undergraduate students interested in continuing studies beyond their baccalaureate degree. The Degree Pathway provides a strong base of knowledge and skills in business cybersecurity, and at the same time accelerates completion of the Master of Science in Information Systems/Business Cybersecurity Track degree. Students may take advantage of the overlap of courses in the Bachelor of Business Administration in Information Systems/Business Information Security Track and MSIS/Business Cybersecurity Track programs to receive their MSIS/Business Cybersecurity Track degree in a shorter period than might otherwise be possible.

A student admitted to the Degree Pathway will be considered to have undergraduate status until conferral of their BBA in IS/Business Information Security Track degree. Upon conferral of their undergraduate degree, the student will be granted graduate status.

Admission Requirements

1. Students must be enrolled in the BBA in Information Systems/ Business Information Security Track degree program.
2. Students must have completed at least 75, but no more than 90, credits of coursework.
3. Students must have completed ISM 4220 and ISM 4323 with a B or better.
4. Students must have an overall (transfer and FIU) GPA of 3.34 or higher.
5. Students must have two letters of recommendation, with at least one from a member of the FIU Department of Information Systems and Business Analytics.

General Requirements

1. Students must maintain a GPA of 3.0 or greater to remain in the Degree Pathway.
2. BBA in Information Systems / Business Information Security Track degree must be awarded before the Master of Science in Information Systems/Business Cybersecurity Track degree.
3. No grade below “C” will be accepted in any course taken to satisfy graduate program requirements.
4. Grade requirements for the Master of Science in Information Systems/Business Cybersecurity Track apply to courses counted toward the Master of Science in Information Systems/Business Cybersecurity Track degree.
5. Up to 4 courses (12 credits) may be used in satisfying both the BBA in Information Systems/ Business Information Security Track and Master of Science in Information Systems/Business Cybersecurity Track degree requirements.
6. Students must fulfill the degree requirements of both the BBA in Information Systems/ Business Information Security Track and Master of Science in Information Systems/Business Cybersecurity Track degree programs, with all overlapping courses approved by both graduate program director and undergraduate advisors before students enroll in such courses.

Minor in Business Analytics (12 credits)

The Department of Information Systems and Business Analytics (ISBA) offers a Minor in Business Analytics to non-Business Analytics majors (IS). Additionally, Information Systems (IS) majors with a track in Business Analytics may not pursue a Minor in Business Analytics. The minor affords students the opportunity to learn about the application of statistical methods and techniques through decision support systems (DSS), expert systems (ES), business intelligence (BI) reporting tools, and business analytics (BA) data mining tools. As both public
and private sector organizations accumulate ever-increasing stores of data, their ability to apply quantitative techniques and tools constitutes an essential skill. While the application of such techniques has historically focused on accounting and financial data, marketing and other fields are increasingly analyzing data to drive new business models and achievement of competitive advantages. Students are required to receive a grade of “C” or higher in each course.

**Required Courses**

Business students are required to complete the following course (3 credit hours).

- **QMB 3200** Business Statistics and Analysis I 3

Non-business students are required to complete one of the following four courses (3 credit hours).

- **ECO 3410** Measurement and Analysis of Economic Activity 3
- **STA 3033** Introduction to Probability and Statistics for CS 3
- **STA 3112** Statistics II 3
- **STA 3123** Statistics for Behavioral and Social Sciences II 3
- **STA 3145** Statistics for the Health Professions 3
- **STA 3164** Statistical Methods II 3

All students are required to complete all three of the following courses (9 credit hours).

- **ISM 4400** Managerial Information Analysis 3
- **ISM 4402** Business Intelligence and Reporting 3
- **ISM 4420** Business Analytics 3

**Minor in Project Management (12 credits)**

The Department of Information Systems and Business Analytics (ISBA) offers a Minor in Project Management to non-Information Systems (IS) majors. The minor affords students the opportunity to acquire project management skills. As the fundamental process project enterprises employ to organize and manage numerous initiatives, project management skills allow business professionals to succeed in many different fields. Accordingly, the Minor in Project Management is open to all students to help them develop a set of basic skills to effectively manage projects in their professional lives. Students are required to receive a grade of “C” or higher in each course.

**Required Courses**

Business students are required to complete the following course (3 credit hours).

- **ACG 3301** Managerial Accounting 3

Non-business students are required to complete the following course (3 credit hours).

- **ACG 3024** Introduction to Accounting for Managers and Investors 3

All students are required to complete one of the following courses (3 credit hours)

- **ISM 4314** Project Management 3
  or
- **MAN 4583** Project Management 3

All students are required to complete both of the following courses (6 credit hours).

- **ISM 3153** Business Process Analysis 3
- **ISM 4113** Systems Analysis and Design 3
