Decision Sciences and Information Systems

Christos P. Koulamas, Professor and Chair, Ryder
Eminent Scholar and Senior Associate Dean and
Faculty Director, MSMIS Program, International
Executive MBA Jamaica and Professional MBA
Dominican Republic and Panama

Dinesh Batra, Professor and Knight Ridder Research
Fellow

Irma Becerra Fernandez, Associate Professor and Vice
Provost for Academic Affairs

Nancy Borkowski, Clinical Associate Professor and
Faculty Director, Healthcare Management MBA
Program

Karlene Cousins, Associate Professor
Gloria Deckard, Associate Professor
Kaushik Dutta, Associate Professor
Joyce J. Elam, Professor, James L. Knight Eminent
Scholar and Executive Dean
S. Christopher Ellis, Instructor
Sushil K. Gupta, Professor and Knight Ridder Center
Research Fellow
Gerard Klonarides, Instructor
Kuldeep Kumar, Professor
George J. Kyparisis, Professor and Knight Ridder Center
Research Fellow
Ronald M. Lee, Professor
Deisell Martinez, Visiting Assistant Professor
Manoel Oliveira, Lecturer and Director of Technology
Center
Dasaratha V. Rama, Professor and Knight Ridder Center
Research Fellow
Larry A. Smith, Associate Professor
Monica Tremblay, Assistant Professor
Debra Vander Meer, Assistant Professor
Nicole Wishart, Senior Instructor
Weidong Xia, Associate Professor
Steve H. Zanakis, Professor

Participating Adjunct Faculty
Susan Clemmons
Stylianos Drakatos
Faisal Kaleem
Geraldine Klonarides
Stoyanka Petrova
Thanth Sin

Purpose

With the rapid decrease in information technology
cost/benefit ratios, the advancement of graphical user
interfaces, and the development of the Internet,
information systems have become ubiquitous and
strategic.

Students in the information systems concentrations use
new or existing research methods to help understand the
ways in which contemporary organizations design,
employ, and manage information systems.

Students in our graduate programs learn the
intellectual frameworks and methods used in areas like
systems analysis and design (including object-oriented
applications), database management, decision support
systems (including data warehousing), global electronic
commerce, enterprise-wide information systems, and
information systems management.

The Department of Decision Sciences and Information
Systems offers a Master of Science in Management
Information Systems (MSMIS) and a concentration in the
Ph.D. program.

Master of Science in Management
Information System (MSMIS)

Our Master of Science in Management Information
Systems (MSMIS) is the only program of its kind that was
actually designed with strategic direction from the top
CIOs in South Florida. In conjunction with our world-
renowned faculty, our advisory board of top IT
professionals was instrumental in creating a new and
unique master’s program that delivers knowledge critical
to the success of future Chief Information Officers (CIOs).

To better prepare you to become a CIO, we offer you
an integrated curriculum that combines technical and IT
management skills, including electronic commerce
management and strategy, database management,
systems analysis and design, project management,
knowledge management, and business intelligence. This
approach enables you to understand the complexities of
today’s most critical business systems and to manage IT
resources to produce the best results for your
organization.

Unique Features

• Complete the program in 12 months.
• Acquire a unique combination of technical and IT
management skills.
• Learn high-demand technologies such as Teradata,
SAP, Rational Rose, .Net Java, PL/SQL, UML, XML.
• Gain hands-on application experience in state-of-the-
art technology labs.
• Build a future network of highly-qualified professionals
and peers in the IT field.
• Improve your soft skills by taking mandatory
professional development seminars focused on
leadership, team-building skills, oral and written
presentation skills, and career preparation.

Admission Requirements

To be eligible for admission to the MSMIS degree program
in the Chapman School, prospective students must:

1. Hold a Bachelor’s degree or equivalent from an
accredited college or university.
2. Show high promise of success in graduate work as
determined by the faculty based on a minimum score
of 500 on the Graduate Management Admission Test
(GMAT) or 1000 (combination of verbal and
quantitative) on the Graduate Record Exam (GRE)
or demonstrate at least four years of IT (Information
Technology) related work experience. If the applicant
already completed a graduate degree from an
accredited university with a minimum of a 3.0 grade
point average (GPA), he or she may be eligible for a
GMAT or GRE waiver.
3. Have a minimum upper division grade point average
(GPA) of 3.0.
4. Provide a personal statement on the motivation to attend the program, including personal and career goals

5. Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version) or 6.5 overall of the International English Language Testing System (IELTS).

6. If applicant is a student in the Graduate Certificate in Management Information Systems, and have completed the first 12 credits with a GPA of 3.25 or higher, he or she may be eligible for admission to the program.

7. Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum program requirements does not guarantee admission.

The following courses are required for the MSMIS degree:

**ISM 6205**  Database Management  3
**ISM 6222**  Telecommunication Networks  3
**ISM 6316**  Project Management of Information Sciences  3
**ISM 6106**  Systems Analysis  3
**ISM 6326**  Information Security  3
**ISM 6156**  Enterprise Information Systems  3
**ISM 6930**  Special Topics in Management Information Systems  3
**ISM 6423**  Knowledge Management  3
**ISM 6489**  Electronic Commerce Management  3
**ISM 6057**  Web Management  3
**ISM 6338**  Information Systems Policy and Strategy  3
**ISM 6136**  Business Intelligence Applications  3

**Professional Development Seminars I, II, III**

**Professional Development Seminars**

Seminars will focus on soft skills such as leadership, team building, oral presentation, writing skills and career exploration. There will be team-building activities which include classroom exercises in group decision-making and problem-solving. Challenging outdoor exercises will be included to help participants build the skills they will need to work together in the program and to succeed in today's team-based organizations. Students will also work with a presentation and writing skills coach to improve the communication and writing skills that are critical to managerial success.

Seminars will be mandatory, non-credit.

**Professional Development Seminar I**

Team Building – Ropes Course  8hrs
Career Development  6hrs
Working in Teams  4hrs

**Professional Development Seminar II**

Presentation Skills  8hrs

**Professional Development Seminar III**

Writing Skills  8hrs

To complete MSMIS degree, students need to successfully complete all 12, three-credit hour courses for a total of 36 credit-hours, and maintain a B average (3.0 GPA).

For additional information, please visit [http://msis.fiu.edu](http://msis.fiu.edu) or contact the Program Manager at (305) 348-6852 or msis@fiu.edu.

**Master of Science in Management Information System/Master of Business Administration Joint Degree Program**

The Department of Decision Sciences and the MBA program in the Alvah H. Chapman Jr. Graduate School of Business at Florida International University are offering a joint degree program culminating in both a Master of Business Administration (MBA), and a Master of Science in Management Information Systems degree (MSMIS). Under the joint degree program, a student can obtain both degrees in significantly less time than it would take to obtain both degrees if pursued consecutively. The joint degree program will use existing faculty, courses, and resources. Important criteria relating to the joint degree program are as follows:

1. Candidates to the joint degree program must meet the entrance requirements established by each individual program. Candidates must indicate on the application their intention to pursue the joint degree option. Students deciding to pursue the joint degree option after having been admitted to one program will indicate this intention only on their second application.

2. Applications for a joint degree will not be accepted from candidates who have already completed either degree. MBA or MSMIS students must apply and be admitted no later than the second to last semester in which they are expected to complete their original degree requirements.

3. Candidates must satisfy all requirements for each degree. To obtain the MSMIS degree, the student will be required to take twelve (12) MIS courses. This includes the one MIS course in the MBA core program, plus eleven MIS courses from the MSMIS program, for a total of 36 credit hours. Four of these eleven MSMIS courses will be used to satisfy part of the elective requirements of the MBA program. To obtain the MBA degree, the student will have to fulfill all the MBA program requirements. The two degrees will have five common courses. All courses transferred between degrees must be completed with a grade point average of 3.0 or higher. MSMIS courses transferred to meet MBA elective credit must be 6000 level courses approved by the University Curriculum Committee. Directors of the MBA and MSMIS degree programs may adjust these exact course requirements as a result of future changes to the MBA or MSMIS curriculums.

4. Joint degree candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all first degree program requirements as if the student had never been a joint degree candidate. With the joint degree program students will take a total of 76 credit hours to get both degrees. Without the joint degree program students will need to take 91 credit hours to get both degrees. Thus, MBA students who have taken twelve credits of MSMIS common courses may obtain an MSMIS
degree with an additional 21 credits. MSMIS students who have taken three credits of a MBA core MIS course may obtain an MBA degree with only 40 credits.

For additional information, contact the Evening MBA office at (305) 348-3256 or the MSMIS Office at (305) 348-6852.

MIS Concentration in the PH.D. Program
The Department of Decision Sciences and Information Systems offers a Management Information Systems (MIS) concentration in the doctoral program in Business Administration. The concentration requires completion of the following six courses (18 credit-hours):

- ISM 7935 Foundations of IS Research
- ISM 7306 Seminar on Strategy and Information Resource
- COP 7545 File and Database Systems
- ISM 7126 Seminar on Systems Analysis
- ISM 7406 Decision Support Systems
- ISM 7xxx Enterprise Information Systems

Please contact the Ph.D. program director, Professor Ronald M. Lee for further requirements and details.

Graduate Certificate in Health Informatics and Management Systems
The Graduate Certificate in Health Informatics and Management Systems (HI&MS) is designed for information systems professionals, physicians, nurses and other clinical personnel and healthcare support personnel who want to increase their knowledge of health information and management of the complex social and organizational issues surrounding the increased emphasis on managing the quality, safety, outcomes and cost effectiveness of healthcare through information systems. The goal of this program is to educate effective developers, users, and managers of health information systems. Students will learn how to implement and use the health information systems needed by hospital and system executives, government planners, public health officials, and other healthcare professionals. Courses will have both an academic and practical perspective, exposing students to both theoretical approaches and real world application.

The certificate provides opportunity for health care professionals to build knowledge and skills in the growing field of health informatics and management systems, and for current graduate students in information systems, healthcare management, and clinical professions to supplement and enhance their degree to include in this focal point of health care delivery.

Admission Requirements
To be eligible for admission to the Graduate Certificate in HI&MS program in the Chapman School, prospective students must:

1. Hold a Bachelor’s degree or equivalent from an accredited college of university.
2. Have a minimum upper division grade point average (GPA) of 2.75.
3. Provide a personal statement on the motivation to attend the program, including personal and career goals.
4. Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version) or 6.5 overall of the International English Language Testing System (IELTS).
5. Be in good standing with all previously-attended colleges and universities.

Program Requirements
Classes are structured into “blocks” or 8 week hybrid format sessions so you may complete the certificate in 3 semesters. Each session consists of only course:

- MAN 6095 Management of Healthcare Organizations in the 21st Century 3
- HSA 6759 Quality Assessment and Outcome in Healthcare 3
- MAN 6096 Fundamentals of the U.S. Healthcare Delivery System 3
- ISM 6316 Project Management of Information Sciences 3
- ISM 6136 Business Intelligence Applications 3
- HIM 6627 Health Care Information Management 3

Students in the MS MIS or Healthcare MBA programs may apply for the Graduate Certificate in HI&MS while completing their degrees. If accepted into the certificate program, the student may apply appropriate course credits from the degree program towards the certificate.

Students in the certificate program may express interest for further graduate studies and may transfer appropriate credits into specific graduate degree programs. After a student has completed 12 hours in the certificate program, the student may transfer credits into the MS MIS or Healthcare MBA. In that case, if the certificate GPA is 3.25 or higher the student may transfer into a degree program provided he/she has completed the relevant graduate application, application fee, and has submitted all required materials. If a student does not meet 3.25 GPA in the first 12 credits, he/she cannot be considered for admission to the MS in HI&MS Program. The student will finish two more courses in the Certificate Program and will be awarded the Graduate Certificate in Health Informatics and Management Systems.

Eligible students would have to apply and be admitted to the degree program before completing more than 12 credits in order to have the additional courses be counted for both the certificate and the graduate degree. The decision on the acceptability of the graduate certificate credits would be made by the graduate program director.

For more information, please contact: Zuzana Hlavacova Gurung, Ph.D., Associate Director, Graduate Management Programs, Zuzana.hlavacova@fiu.edu or (305) 348-6891.

Graduate Certificate in Healthcare Management
The objective of this proposed graduate certificate is to provide individuals with a basic understanding of the context, management and reimbursement issues for health services organizations.
Admission Requirements

Students must have an earned baccalaureate degree with a GPA of 2.75 or higher.

Prerequisite:

Computer skills including: Word, Excel and PowerPoint

Program of Study (15):

- MAN 6096 Fundamentals of the U.S. Healthcare Delivery System 3
- MAN 6095 Management of Healthcare Organizations in the 21st Century 3
- HSA 6176 Financing and Reimbursement of Health Systems 3
- HSA 6197 Design and Management of Health Information Systems 3
- HSA 6759 Quality Assessment and Outcome in Healthcare 3

Graduate Certificate in Management Information Systems

The Graduate Certificate in Management Information Systems is designed to meet the rapidly evolving needs of information systems and business professionals in the field of management information systems. The goal of this certificate program is to provide a solid understanding of the design, development, technology, and management of information systems. The program focuses on areas in high demand – database management, systems analysis and design, and telecommunication networks.

Admission Requirements

To be eligible for admission to the Graduate Certificate in MIS program in the Chapman School, students must:

1. Hold a Bachelor’s degree or equivalent from an accredited college or university.
2. Have a minimum upper division grade point average (GPA) of 2.75.
3. Graduate student applicants whose studies were completed outside of the US must demonstrate proficiency in the English language by presenting a minimum score of 80 on the iBT TOEFL (equivalent to 550 on paper-based version) or 6.5 overall of the International English Language Testing System (IELTS).
4. Be in good standing with all previously-attended colleges and universities.

Admissions at the graduate level are competitive and meeting minimum program requirements does not guarantee admission.

The Certificate Program consists of six courses, (18 credit hours):

- ISM 6205 Database Management
- ISM 6222 Telecommunications Networks
- ISM 6316 Project Management of IS
- ISM 6106 Systems Analysis
- ISM 6326 Information Security
- ISM 6423 Knowledge Management
