Purpose
The Department of Management and International Business seeks to provide undergraduate students with courses that emphasize the most current knowledge in the profession. A dedicated faculty with expertise in strategic management, change management, human resource management, organizational behavior and international business prepares our students for successful management careers in the global business arena. Our graduates are armed with a clear understanding of the management field, a broad intellectual framework for managing in an evolving marketplace, the ability to lead and work within teams, computer literacy, and solid communication skills.

Information for all Management, Human Resource Management, and International Business Majors

Undergraduate students can select a general Management Major, a Human Resource Management Major, or an International Business Major.

Double Major: Students also can combine two of the above majors and complete a double major which gives students a competitive edge in the job market. Students can apply three courses from one major to the second major. These 3 courses when combined with the student’s four upper division business electives allow students to complete the double major within 120 or 123 credits. Students desiring a double major are encouraged to meet with their College of Business advisor early in their program of study.

Internships: The Department also offers internship opportunities to undergraduate students through our University’s Career Services Office located in CBC 121. To qualify for academic credit in these activities, students must have a 2.75 GPA, junior or senior standing, and approval from the Department Chair.
