Dietetics and Nutrition

Fatma Huffman, Professor and Chair
Marianna Baum, Professor
Adriana Campa, Assistant Professor
Michele Ciccazzo, Associate Professor and Interim Vice Provost, Academic Affairs
Katharine R. Curry, Professor Emeritus
Victoria Castellanos, Associate Professor and Associate Dean, University Graduate School
Zisca Dixon, Associate Professor
Penelope S. Easton, Professor Emeritus
Evelyn B. Enrione, Associate Professor
Valerie George, Research Associate Professor
Dona Greenwood, Clinical Assistant Professor, Director, Coordinated Program and Director, Didactic Program
Susan P. Himburg, Professor Emeritus
Juan P. Liuazzi, Assistant Professor
Marcia Magnus, Associate Professor
Liza Merly, Clinical Instructor
Vijaya Narayannan, Assistant Professor
Tanja Rivera, Clinical Assistant Professor
Dian O. Weddle, Associate Professor Emeritus

The Program in Dietetics and Nutrition offers graduate studies leading to a Master of Science or a Doctor of Philosophy in Dietetics and Nutrition. The M.S. program is designed to meet the needs of professional practitioners as well as students with undergraduate degrees in related fields. The Ph.D. program prepares graduates to assume leadership roles in research, academia, government agencies, private industry and community-based organizations. Our doctoral program allows students to study and work side-by-side with nationally known educators, researchers, and practitioners who serve as mentors. Both graduate programs afford students the opportunity to conduct original research and to report this in a scholarly manuscript. This option is especially well suited to a student who plans on pursuing a PhD degree. Students who select this option must choose a major professor to act as the chair of their thesis committee and two additional committee members. Before beginning work on a thesis, a student must present a proposal to their committee for approval. The committee will direct and supervise the work carried out by the student. Student must take a minimum of 6 credits of DIE 6971 Thesis in Dietetics & Nutrition.

Master of Science in Dietetics and Nutrition

Each student's program will be planned to support his/her career goals through consultation with an assigned faculty advisor. Retention and graduation in the Master's program requires maintenance of a 3.0 GPA and student may not receive more than 2 grades of "C+" or less.

Course Requirements

Required Core: (26 credits)

Master Thesis Option

The thesis option provides the student the opportunity to conduct original research and to report this in a scholarly manuscript. This option is especially well suited to a student who plans on pursuing a PhD degree. Students who select this option must choose a major professor to act as the chair of their thesis committee and two additional committee members. Before beginning work on a thesis, a student must present a proposal to their committee for approval. The committee will direct and supervise the work carried out by the student. Student must take a minimum of 6 credits of DIE 6971 Thesis in Dietetics & Nutrition.

Research: (14 credits)

PHC 6704/ Research Methods 3
DIE 6568 Graduate Seminar in Dietetics (two semesters) 1
DIE 6937 Thesis in Dietetics and Nutrition 6
STA 6166 Statistical Methods in Research 3

Masters Project Option

Master's Project is a non-thesis option. It affords the opportunity to conduct applied research, program planning, or program evaluation on a specific dietetics and nutrition problem, topic, or existing program in either a community or institutional setting. Students who select the Master's Project must choose a major professor to direct their project. The advisor and the student may identify other resource persons to serve in an advisory capacity for the project. Before beginning the project, student must present a project concept proposal to the major professor. This project will be approved by the Graduate Program Director. Student will write a project report and present the study at an announced open forum similar to the thesis defense. This report will not be on file in the FIU library. Student must take 3 credits DIE 6907 Individual Study in Dietetics and an additional 3 credits in coursework in consultation with major professor.

Research: (8 credits)

PHC 6704/ Research Methods 3
DIE 6568 Graduate Seminar in Dietetics (two semesters) 1
STA 6166 Statistical Methods in Research 3

Coursework: (6 credits)

DIE 6907 Individual Study 3
Additional course (approved by major advisor) 3

Nutrition Core: (9 credits)

Students must take at least three out of five courses. One course must be in macro-nutrients, one in micro-nutrients.

HUN 5245 Nutrition and Biochemistry 3
HUN 6307 Carbohydrates and Lipids 3
HUN 6327 Proteins 3
HUN 6335 Functions of Vitamins 3
HUN 6355 Minerals in Human Nutrition 3

Public Health Core: (3 credits)

PHC 6500 Foundation of Public Health Practice 3

Recommended Electives1: (11 credits)

ANT 6469 Graduate Medical Anthropology 3
DIE 6368 Advanced Techniques in Dietetic Practice 2
DIE 6368L Advanced Techniques in Dietetic Practice Lab 1
DIE 6929 Specialized Short Course in Dietetics and Nutrition 1
FOS 6236 Food Toxicology and Food Safety 3
HUN 5123 Ethnic Influences on Nutrition and Food Habits 3
HUN 5621 Food, Nutrition and Communication 3
HUN 6248 Sports Nutrition 3
HUN 6254 Drug and Nutrient Interaction 3
HUN 6255 Nutrition and Wellness 3
HUN 6257 Physio/Psychology of Food Intake 3
HUN 6266 Nutritional Assessment 3
HUN 6295  Contemporary Issues in Food and Nutrition  3  
HUN 6435  Nutrition and Aging  3  
HUN 6522  Public Health Nutrition  3

1Courses that are not listed as recommended electives may be taken as approved by advisor/Program Director.

MPH Specialization Areas

The School offers a Master's degree in Public Health with a specialization in Community Nutrition.

MPH in Community Nutrition courses prepare students to use scientific methods of study, interpret, and apply findings to improve community nutrition problems. This program of study is focused on the ability to develop, implement, manage, and assess nutrition programs for local, state and Federal public health agencies. See also Graduate Certificate in Nutrition.

General Core Courses: (15 credits)

- PHC 6065 Health Statistics  3
- PHC 6000 Introduction to Public Health Epidemiology  3
- PHC 6315 Introduction to Environmental Health  3
- PHC 6410 Health Behavior and Public Health  3
- PHC 6102 Public Health Policy and Management  3

Specialization in Community Nutrition (15 credits)

- HUN 6522 Public Health Nutrition  3
- HUN 5611 Nutrition Education in the Community  3
- PHC 6704 Research Methods  3
- HUN 6295 Contemporary Issues in Food and Nutrition  3

One of the following: (3 credits)

- HUN 6255 Nutrition in Wellness  3
- HUN 5123 Ethnic Influences on Nutrition and Food Habits  3
- HUN 6435 Nutrition and Aging  3
- HUN 5195 International Nutrition  3

Doctor of Philosophy in Dietetics and Nutrition

Ph.D. students must complete a minimum of 55 hours after M.S. degree or a minimum of 75 hours beyond the B.S. degree. The stated minimum does not include remedial coursework. Coursework will be planned with the advisor and the dissertation committee to support the student’s research interests and career goals. A 3.0 GPA must be maintained, and all courses needed for graduation must be completed with a grade of “C+” or higher.

Required Courses

Research & Methods Core: (15 credits)

(Prerequisites: PHC 6704 or equivalent; PHC 6709 or equivalent)

- PHC 6718 Quantitative Analysis in Health and Urban Affairs II  3
- PHC 6710 Qualitative Research Methods in Public Health  3
- PHC 6703 Epidemiology Methods: Experimental Design  3

or

Approved Experimental or Clinical Research Methods Course  3

HUN 6266 Nutritional Assessment  3

PHC 7981 Research Concepts and Proposal Development  3

Seminar: (minimum 3 credits)

DIE 6937 Graduate Seminar in Dietetics & Nutrition  1

(N course may be repeated 3 times, minimum)

Nutrition Science: (0-9 credits)

- HUN 6285 Nutrition & Metabolism I (CHO&Lipids)  3
- HUN 6286 Nutrition & Metabolism II (Proteins)  3
- HUN 6287 Nutrition & Metabolism III (Vit&Min)  3

1Do not need if equivalent previously taken at the graduate level.

Dietetics: (minimum 13 credits)

- HUN 7408 Nutrition Across the Lifespan  3
- HUN 7523 Community Nutrition  3
- HUN 7524 Nutrition Science and Implications for Community Health  3

2A program of study will be developed with the assistance of a major professor and dissertation committee. More than 13 credits may be required for the student to achieve competency in the research methods and content related to their dissertation research. Graduate courses outside of Dietetics & Nutrition may be taken as approved by dissertation committee.

Dissertation: (minimum 24 credits)

DIE 7980 Dissertation  12-24

Doctor of Philosophy in Public Health Specialization in Community Nutrition

The Doctor of Philosophy (Ph.D.) in Public Health is available with a specialization in Community Nutrition. Students will be expected to demonstrate significant research capacity by completing 60 credits beyond the Master's degree and through the writing of an original dissertation.

Required Courses

The program requires a minimum of 75 credit hours beyond the baccalaureate which includes a minimum of 24 hours of dissertation credits. There are three components to the College Ph.D. curriculum. The first is a core curriculum shared across all tracks (12 credit hours). The second component is specific to the tracks (27 credit hours) and secondary field courses (12 credit hours). The third component consists of the dissertation, including 24 dissertation credit hours.

Shared Core Courses: (12)

- PHC 6601 Emerging Issues in Public Health  3
- PHC 6718 Quantitative Research Analysis in Health and Urban Affairs II  3

(or other approved Quantitative Methods course)

- PHC 7981 Research Concepts and Proposal Development  3
- PHC 7705 Methods in Evidence Based Public Health  3
Courses for Community Nutrition Track: (27)

A minimum of 9 hours in Method and 18 hours in Content Courses is required (with 9 required credits at the 7000 level).

**Method Courses**
Major advisor and the program committee for the student will identify method courses.
- DIE 6937 Graduate Seminar in Dietetics and Nutrition (1 credit, take 3 times) 3
- HUN 6266 Nutritional Assessment 3
- PHC 6704 Research Methods in Health and Social Services 3
  (or other approved methods course)

**Content Courses**
- HUN 7523 Community Nutrition 3
- HUN 7408 Nutrition Across the Life Span 3
- HUN 7524 Nutrition Science and Implications for Community Health 3

*Take at least 6 credits of the following:*
- FOS 6236 Food Toxicology and Food Safety 3
- HUN 6255 Nutrition in Wellness Programs 3
- HUN 6257 Physio/Psychology of Food Intake 3
- HUN 6435 Contemporary Issues in Food and Nutrition 3
  (or other approved course)

**Secondary Field Courses: (12)**
Secondary field courses selected from approved graduate school courses in consultation with academic advisor.

**Dissertation Requirements: (24)**
- DIE 7980 Dissertation 24
